Index to Record and Guide Vol. LVI.

For New York Conveyances, Projected Buildings and Advertisers.

NOS. 1425 TO 1450. JULY—DECEMBER, INCLUSIVE. 1895.

The following is the semi-annual Index of Volume LVI. of THE RECORD AND GUIDE, containing complete lists of the Conveyances and Buildings Projected in New York City during the last six months of 1895. With this issue of the Index the plan has been adopted of indexing all street and avenue frontages, thus simplifying the whole and rendering it more satisfactory for reference. In many instances there will be found streets, etc., indexed under pages which, on being examined, show at once that they are not in their proper order according to our customary alphabetical and numerical arrangement. A further examination will disclose the fact that while the properties appear more prominently under other street descriptions, they nevertheless extend to the streets, etc., indicated by the Index and having a frontage on same have been included in the paging. Again, it occasionally occurs that one deed will describe property conveyed in fee and also property under lease. As each has been indexed with or without parenthesis as required by its description it will be found at times that a parcel is not in its proper alphabetical or numerical position and it will necessitate a somewhat more thorough search than usual to locate it. The Projected Buildings are indexed in a similar manner to the plan followed with the Conveyances so that it can readily be ascertained on what streets improvements have been made. Those wishing to keep a file for permanent reference should see that all the numbers are complete and have them bound. Cost of binding, $2.00 per volume. A suitable temporary binder, holding one volume, can be obtained at the office, 14 and 16 Vesey street; price, one dollar.

CONVEYANCES.

NOTE.—The figures in parenthesis—for instance, page (897) under the head of Allen street, from Broome to Delancey street—denote that the transaction on the page given is Leasehold, an assignment of lease or a lease running for a long term of years. This explanation is made so that subscribers searching for transfers in fee can at once distinguish between the former and the latter without referring to the pages mentioned.

Its method of examination is the safest, as the amount of its losses indicates.

Its method of insurance is the strongest, because it is based on the safest examination and the most careful supervision.

Its information is the fullest, because it furnishes abstracts in addition to an opinion and a policy.

Its policies are universally accepted by individuals, trustees and corporations.

It has complete locality and nominal plants of the Counties of New York, Kings and Westchester.

SEALED BIDS will be received until 2 o'clock P. M., TUESDAY, AUGUST 20, 1895, at the office of the State Capitol Commission at Olympia Washington, for all labor and materials required in the erection and completion of the NEW STATE CAPITOL BUILDING AT OLYMPIA, WASHINGTON, according to the plans and specifications therefor, prepared by Ernest Flagg, architect, now on file in the office of the architect in the old capitol building in Olympia, Washington, and also at the office of said architect at No. 54 Broad St., New York City.

Attention is called to Section seven (7), Chapter 138, page 462, session laws of 1893, a portion of which section is as follows: "The performance of every contract shall be secured by a bond to the State of Washington in a sum not less than one-quarter of the contract price, secured by two securities qualifying in double the amount of the bond, each of whom shall be a bona-fide resident of this State, said bond to be conditioned for the faithful performance of said contract. Each bid shall be accompanied by a similar bond conditioned for the execution and faithful performance of a contract in accordance with the said bid, if the same be accepted by the board." Blank forms for bids and of the contract and bond which the successful bidder will be required to enter into are on file with the plans and specifications in the office of the architect, which contract and bond the successful bidder will be required to execute at once upon the acceptance of his bid.

The right is reserved to reject any or all bids. Bids should be addressed to the "State Capitol Commission," Olympia, Washington, and envelopes should be marked "Bid for New State Capitol Building." Blank bonds and forms for bids will be furnished to intending bidders upon application to the Secretary of the State Capitol Commission, Olympia, Washington.

Dated June 8th, 1895.

WITH general business in every sense satisfactory—that is satisfactory for the times, of course—it is a surprise to some people that prices on the stock market do not advance. There are advances all along the line in the iron trade, a prospect at least for a better export business and a good outlook for the crops, and so these people wonder why the prices of the securities they have bought recently do not advance. We alluded last week to one of the prime causes of this hesitation, and can add that Wall street began discounting the present improvement in business at the beginning of last March. A new upward movement depends now upon one of two things: A break in prices which will encourage those who sold out on the rise to take hold again, or some development in the financial situation which will warrant a new advance without a break. The last suggestion is the least likely of the two, and the first may take considerable time in its realization because of the belief of the public, indiscriminate as it is, in existing values and to the case of money.

LONDON is busying itself with political matters releived by occasional interest in the Russo-Franco-Chinese loan, which is in itself partly political at least, and which it may be remarked has not appeared yet. The comments on this matter are characterized by the greatest simplicity. For instance, our extraordinary newspapers express surprise that Russia should receive so large a commission as 1 per cent for guaranteeing the loan, as if the Russian Empire ever seriously intended to enter the bill broking business! This 1 per cent is only a consideration provided for some territorial privilege or right which has formed the subject of the secret agreement between Russia and China, and whose nature is doubtless already known in every foreign office in Europe, though sedulously guarded there for reasons of State. The 1 per cent interest in the loan is such a clumsy device that it would awaken the suspicion of a political dormouse. Business abroad has no new features; bankers everywhere bemoan the indifference of the world to the offers of money, a sign in itself of limited commercial activity; May's foreign business in France showed a substantial decline in imports and an increase in exports; the German iron trade is reverting to stagnation for all but the largest organizations, while in textiles there is good business doing. The cheapness of money is likely to force the conversion of all 4 per cent government loans within the Empire. A bubbling up of the chronic differences between Turkey and the so-called Christian provinces gives the newspaper men another opportunity to manœuvre the fighting forces of Europe in their columns.

THE efficiency of a little real purpose in vitalizing "reform" is very well exemplified in the transformation recently wrought in the attitude of the police to the excise law. For years the police have been afflicted with a queer myopia concerning the offences of saloon keepers. They have not been able to see open doors, or liquorish gatherings perfectly visible to the person of ordinary eyesight. Yet so persistently was the assertion made that the police were in the main innocent of collusion with any wrong doing, that not a few people became deluded to the belief that the enforcement of the excise law was well nigh an impossibility. Indeed there were not a few who held that in the nature of things a "dry" Sunday in New York is nothing better than the dream of a fanatical teetotaler. And of those who held opposite views many said that if all the saloons were to be really closed on Sundays more stringent laws were necessary. But in this matter, as in all other similar failings, the difficulty is not that our laws are either impossible or imperfect, but that behind the law there is no serious determination to make it really effective. Bad government in New York City, wherever and whenever it exists, is due entirely to bad officials. It is a matter of personal character. We do not need any new machinery or any elaborate devices to make the City the best administered municipality in the world. If Paris surpasses us in faithful and efficient government, and if Berlin or London do likewise, it is simply because a different class of men to those ruling in New York City administer the affairs of those communities. The men who can do the work properly are here to be found in New York. The thing is to put them in power and then to induce them to continue to serve the public. This is the real reform to be striven for; it can never be brought about so long as every voter is first of all a politician, a believer in and a supporter of "politics," and after that a good citizen. "Politics," the idea of "party" is the curse of city government.

An Omitted Chapter in Political Economy.

THE economists have been too much inclined to write "contributions to the theory that this is the best possible world;" a corollary of which proposition is that existing evils must inevitably exist. The writers concentrate their attention on the advantages of a given feature of industry and then insist either that the evils attending it are of no consequence or else that they are unavoidable.

This has been particularly the case in describing the influence on the laboring classes of the introduction of improved machinery. Even Alfred Marshall, who is the last and one of the ablest and fairest men systematically to formulate the science, has forgotten to dwell sufficiently on the pains that attend industrial growth. He shows that machinery has taken away from men a progressively large amount of the heavy and disagreeable work, and has left to them that which is intellectual and elevating in its influence. The deadening of the mind by the excessive development of the muscles is no longer necessary because a bucket of coal and a few gallons of water can be made to push the plane, or lift the hod, or propel the loom. In the printing industry the simply mechanical process of setting type, which could be done at irregular intervals by a man of small mental capacity and whose nerves were shaken by drink and dissipation, is giving way to the typesetting machine which requires stronger nerves, greater application and, above all, a larger degree of reliability. As Hermann says, machinery is continually taking work away from men, but it is work that is unworthy of them. It gives them, on the other hand, work of a higher character, which requires the man to be something more than a source of mechanical energy.

All this the economists show, but they neglect to state that a large number of men are incapable of the higher grades of work, and consequently are left with nothing for which they are industrially fit. It is as though the climate of a southern State should change so that those whose character, habits and physique fitted them to cultivate rice should be compelled to give up this industry and undertake the varied occupations and hardships of a New England farmer. A German economist tells how every winter thousands of men in Vienna depend for work upon a fall of snow, they being fitted to shovel show but not to do anything else that needs doing. One of these men, having waited vainly for the snowfall, committed suicide. But this work, the last refuge of men who in a previous generation would have been fully competent, could now better be done by machines or chemicals. It is a task only left to men out of pity operating through politics, and because the men are willing to work for starvation wages.

Those whom industry has outgrown are sometimes congregated, as in the example given, and sometimes not. Oftener the individuals in middle life or past drop out of the industries of the time and are provided for, possibly by their own accumulations of property, or oftener by their relations. When not provided for otherwise they swell the great army of the unemployed to which agitators point as an evidence that our social organization must be needlessly bad. Some reply to the agitator that it is a man's own fault if he is out of work and that if he is unemployed he manifestly belongs to the unfit for whom no social organization can be expected to provide.

This view does not satisfy the agitator for several reasons, and ought not to satisfy him for the reason that it is false in two particulars. In the first place it may not be a man's fault that industry has outgrown him. He may have prepared himself to do some task which was essential to industry when he was young, but the necessity for which has now disappeared. Society could not have existed, perhaps, unless men had at one time offered themselves to do exactly this work. They accom-

modated themselves to the demand, but after they had done so it vanished and they were left without a function. Where the demand has operated through several generations and has selected into existence, so to speak, a large and well-marked class, its disappearance is a death warrant for many of the individuals composing that class.

The second particular wherein the reply to the agitator is unsound is in the contention that, whether or not the incapable man is to blame for his incapacity, his sufferings are inevitable, are in the order of nature and may as well be forgotten. It is not clear that we need to step on quite so many people in "the march of progress." While the agitator is wrong in asserting, or assuming, that it would be easy for a properly organized industry to find use for all who "have taken the trouble to be born," the apologist of the existing order is equally wrong in asserting that all the human material which is now unused is inherently unusable and must be "thrown as rubbish to the void." The technicians have given more attention to the utilization of by-products made from "waste" than have the economists.

The English proposals for old age pensions are based on a recognition of the duty of society to provide for those by whose sacrifice it has prospered, but it would manifestly be much more satisfactory if industrial progress could be more economically ordered. The best economic justification of the short labor day, and of manual training and abundant years of schooling for the young, is that these things tend to result in men that are more adaptable to the varying needs of modern industry. The years of their usefulness and self-dependence are consequently greater and their efficiency higher.

Whether or not the course of industrial development can itself be so modified as to result in less waste of ability and life is a subject that requires consideration. We cannot here write the omitted chapter in political economy, but only point out that it needs to be written.

The Enlarged New York.

The two suits brought to test the validity of the act passed this year by the Legislature enlarging the area of New York City have justified the acts of the city authorities in taking possession. There is a conformity of views in the separate decisions of Justice Dykeman at White Plains and Justice Patterson in New York City that makes it almost certain that this would be the final outcome of any further proceedings should any be taken. The following from Justice Patterson's opinion is practically a summary of the views of both justices: "It seems to me that the provision of section 5 of article III., respecting the division of counties, must be considered as allowing the Legislature to divide a county, and, as in the present instance, to annex a portion of Westchester county to the city and county of New York for all governmental and political purposes, excepting so far as Senate and Assembly and perhaps judicial representation are concerned. The result of such an interpretation will allow both provisions of the Constitution to stand, but will undoubtedly present the feature that the voters in the recently annexed district would vote for Senators and Assemblymen with the voters of Westchester county instead of the city and county of New York. But there is nothing novel or unprecedented in that situation. It is precisely the one that existed with reference to the first annexed district of the city and county of New York for many years."

Railroad Facilities of the Upper West Side.

No attempt has been made to pass the resolution of the Board of Aldermen granting the franchise for surface railroad development in the upper West Side district to the Third Avenue Railroad Company, over the Mayor's veto. At the last meeting of the Board of Aldermen the Metropolitan Traction Co submitted a proposition for a new road, either cable or underground trolley, to run from 116th street and Lenox avenue northward to the city line over the streets named in its first application, with transfers to the Third Avenue Railroad Company at 125th street on a pro rata share of receipts, and to its own passengers at 116th street and Lenox avenue. It offers for this franchise $100,000 and 2 per cent of the gross receipts in addition to the 3 per cent for the first five years and 5 per cent thereafter required to be paid by law. The Third Avenue R. R. Co. applied for a franchise to operate a system north of 162d street, with transfer privileges to the Traction Company's passengers at 125th street, and the lease of its West Side tracks, south of 125th street, to the Traction Company at a nominal rental. For this privilege it proposes to pay the city $250,000 in addition to the lawful percentage of receipts. Both requests were referred to the Railroad Committee, and it is understood that they will come up in the Board on August 7th.

Trinity Tenements.

The Trinity Corporation has issued in pamphlet form, which doubtless can be had on application, a report on the sanitary condition of its tenements and other documents in refutation of the charges made last spring that these tenements were unsanitary and otherwise unsuited for human habitation. These charges are refuted by the figures of mortality given showing that the Trinity tenement death rate compares favorably with that of the tenement census, forty-one selected tenements, twenty-two selected tenements, the United States census report and of the 8th Ward and unfavorably with the general city death rate. Apart from their main purpose the pamphlet as a whole is an interesting contribution to the tenement house question. One statement by Dr. Dix, page 10, ought to have a prominent place in the minds of Mr. R. W. Gilder and his co-tenement house reformers. It is: "As to model tenement houses, on a more rational and practical scale, the corporation is not without experience. It has already erected ten such houses, not one of which has incurred the criticism of the committee; but not one of them is full; there are many vacant apartments, and if filled they would not net more than 4 or 5 per cent, and in fact have not netted more than from 3 to 3¼ per cent."

The Tax Lists.

The Commissioners of Taxes and Assessments have filed the tax books for 1895 with the Board of Aldermen, in whose office they will remain for twenty days, subject to public inspection. Any persons feeling aggrieved by their assessments can within that period move for a writ of certiorari to obtain a review of the action of the Commissioners in their individual cases. The general results are given below. The comparisons in some of the wards are imperfect because of the use of the new tax maps abolishing the old ward lines and introducing sections of more easily defined limits as in the examples stated. Maps for Sections 4 and 7, it is expected, will be ready for the 1896 valuations, and for others as years go on, so that no accurate deductions as to how one part of the city compares in growth of property valuation can possibly be made until the new maps are all completed and have been in use for some time. The increase in the real estate valuation of the city as a whole, $32,970,678, is the lowest since 1889, when it was $28,759,412. In the intervening years it has varied from $42,406,937 to $66,711,716. The large falling off in the personal estate is due to the attitude taken by the courts towards previous rulings of the Commissioners as well as to the shrinking of values in the past two years. Some of the assessments are continued from 1894, although the subject of legal controversy. This applies to $10,700,000 belonging to the Gould family.

Elm Street to be Widened.

The Board of Street Opening and Improvement tabled the suggestion that Marion street be widened in continuation of Centre street, and the block cut through Great Jones street to Lafayette place,

Brenton's Cove, Newport, R. I. *Residence of E. D. Morgan, Esq.* McKim, Mead & White, Architects.

thus practically deciding to carry out the Elm street improvement as at present laid out.

Questions and Answers.

Correspondents who do not find answers to their communications in this paper must please refer to future issues.

To the Editor of THE RECORD AND GUIDE:

Can a flat built under the new building law on a 25x100 lot be as large as those built heretofore?

Answer.—No. Under the old tenement house law one was allowed to cover 78 per centum of the area of the lot. Under the new law the limit is 75 per centum. This difference of 3 per cent on 2,500 feet amounts to 75 feet, or an equivalent of one room less on each floor of a flat.

Financial.

The lengths to which the injury to business by wage disputes may be carried is brought out by the default on the Columbus and Hocking Coal and Iron 1st mortgage 6 per cents. The company issuing these bonds appears to be solvent and to have a good plant for doing business, but has been so tied up by trade disputes in the past six months that it has no money with which to meet accruing interest. Since May 1st it has practically been deprived of the use of its property for forty days, and although now operating, it is doing so only on a day to day agreement, and consequently cannot make time contracts. There is here either a piece of stupid obstinacy on the part of the management or gross tyranny on the part of the men.

Northern Pacific's reorganization is likely to be delayed for some time, the reason given is that legislation is necessary to make binding the part to be assumed by Great Northern. So far as the security-holders and the public are concerned these proceedings are enveloped in a great deal of unnecessary mystery. If as is stated the Great Northern guarantee is to be limited to $6,000,000 net, any very binding agreement is entirely unnecessary because Northern Pacific earns that already and could be safely reorganized on that basis. President Hill is understood to be of the opinion that further legislation is unnecessary, and if his road's guarantee is to be only to the extent of $6,000,000 net per annum no one will dispute his assertion. So far as the facts have been allowed to transpire the benefit to Northern Pacific from the proposed Great Northern connection is very difficult to discover, and it is therefore surprising that the Northern Pacific securities should decline on an intimation that this precious guarantee of something already achieved without assistance, is to be delayed.

The Committee having charge of the Long Island Traction Company's reorganization plan have issued their plan. Without going into all its details, we notice one doubtful feature, *i. e.*, the creation of a voting trust to last for the period of five years. A good, clear, open plan with the property in the hands of its rightful owners is always the best.

Among the many municipal circulars issued for July, we note that by Messrs. N. W. Harris & Co., this city, Boston and Chicago. It contains a large amount of practical information and all municipal investors should secure a copy.

The Franklin Trust Company, of Brooklyn, and Messrs. Spencer, Trask & Co., this city, have placed a large amount of the first forty-five year 5s of the Edison Illuminating Company of Brooklyn. These bonds may be redeemed at 110 and interest by the company.

The recent offering of $2,500,000 bonds of the city of New York by the Comptroller cannot be called a great success. We learn that the total amount of the bids fell $250,000 short of the amount of bonds offered.

The offering of $1,500,000 of the 30-year 4s of the County of Kings, this State, was awarded to the United States Mortgage Company, this city, at $111 39-100, or upon a $3.39 basis. The Mortgage Company, it is said by dealers in the street, has secured the bonds at a reasonable figure unless the 10 year option law, said to be upon the Statute books as regards county issues, is enforced.

The City of Allegheney, Pennsylvania, has just received bids for $800,000 bonds from a Boston syndicate, composed of several well-known concerns of that city, with certain stipulations as to delivery at 106 54-100. Messrs. Kleylotte & Co. of Cincinnati, Ohio, however were the next highest bidders, but without stipulations, at 106 52-100. It is thought, as Messrs. Kleylotte & Co.'s was the highest straight bid, they will obtain the issue.

The Waterbury Cordage Reorganization Committee gives notice in our columns to day that the time for depositing securities under their plan will expire next Friday.

To Our Readers.

Short, simply-worded, accurate, sufficient, well printed legal blanks are very desirable adjuncts in all real estate transactions. THE RECORD AND GUIDE has undertaken to supply these. All necessary real estate forms can henceforth be obtained at the offices of publication at the prices quoted below. The RECORD AND GUIDE guarantees the accuracy and sufficiency of these blanks and believes that in many respects they will be found the best in the market.

John H. Shipway & Brother, importers and manufacturers of foreign and domestic marbles, will very shortly erect on property lately purchased by them at the foot of East 136th street a most extensive marble mill, with all the latest approved machinery for turning out work in the most excellent and expeditious manner. They are at the present time constructing a formidable bulkhead and dock on the property, and in many other ways preparing it for their early occupancy, and they claim that, when completed, they will boast of deeper water front and better dockage facilities than can be found elsewhere in or about this city. The property covers a plot of sixteen lots, with a water frontage of 100 feet. This firm, although not one of the old-time concerns, is undeniably in the foremost rank, as regards enterprise and reputation for first-class work. To bear out the latter statement, they submit for consideration the following large contracts upon which they are at present engaged: St. Luke's Hospital, New York Clearing House, Hoffman House, Buckingham Hotel and Hotel Vendome. Their offices and shops are at present located at 105 to 111 East 128th street, and 104 to 110 East 129th street.

REAL ESTATE BROKERS ACTIVE PROMOTERS OF A NEW FIRE INSURANCE COMPANY.

The preliminary work of securing the necessary 400 signatures required by the Insurance laws, is progressing rapidly in the matter of the projected Lincoln Mutual Fire Insurance Company, which promises to be well supported by representative real estate men. Among the brokers who will be on the Board of Directors are Wm. M. Ryan, Thos. C. Smith and Geo. J. Kenny. Mr. Wm. P. O'Connor, of No. 32 Pine street, the well-known insurance broker, is most active in behalf of the Lincoln Mutual, which, he says, is sure to be a great success.

Personals.

Alfred E. Marling, of Horace S. Ely & Co., returned to New York last week, on the Havel, and will be found during the summer at his customary desk in the Cedar street office.

Thomas S. Walker, of Hall J. How & Co., has left for his annual two months' outing in the Adirondacks and elsewhere.

Frank Yoran is occupying his country home at Good Ground, L. I., coming to town occasionally. Late in July he will go to Delaware Water Gap for ten days.

John T. Williams is occupying his handsome country residence at Lenox, Mass., but spends in New York two days of every week supervising his many building enterprises.

Mayer Kahn sails for Europe to-day on the Columbia and will remain abroad until September, spending the greater portion of the time at Frankfort, Germany.

Louis Jarmulowsky, of M. & L. Jarmulowsky, sailed last Saturday on the Ems for a three months' trip abroad.

Fisher Lewine will spend this month at Tannersville in the Catskills. His associate, H. Mandelbaum, will take a vacation in August.

Max Simon has gone to Asbury Park, N. J., for July and August, but his office on Columbus avenue remains open as usual, Mr. Simon coming to the city as occasion requires.

Beginning on Monday, the County Clerk's offices of both New York and Brooklyn closed at 2 o'clock P. M. in accordance with a law passed by the last Legislature providing for the closing of the offices at that hour daily except Saturdays during July and August.

Real Estate Market.

The celebration of the national holiday practically restricted the operations of the week to three days. Even on Wednesday the actual transactions were few and unimportant, as many of the brokers had left town to remain away, not a few of them until Monday. The week throughout has been permeated with the holiday feeling, and it is a matter of surprise that the brokers' sales indicate an aggregate investment of about $1,100,000. The business that has been accomplished shows a good demand still existing for property improved or susceptible of immediate improvement in the mercantile districts, and an unusually extensive summer investment, involving purchases of dwellings in both the old and new residence sections of the city.

The following are the comparative tables for New York Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1894 and 1895.

As the week's offerings by the auctioneers were of a decidedly uninteresting description they failed to attract an attendance on any day that was hardly any more numerous than the proverbial corporal's guard. On Tuesday Smyth & Ryan were forced to announce the withdrawal of No. 425 10th avenue, the only voluntary offering of the week. It was bid in at $24,950. William Kennelly adjourned sine die a foreclosure sale of No. 45 West 68th street, the sale and resale of which by private contract were referred to some weeks ago. On Wednesday Bryan L. Kennelly sold under foreclosure an entire improved street front, 405x100.11. The sale was remarkable on account of the unusually large number of dwellings included in a single parcel. A foreclosure sale of Nos. 1881 to 1887 1st avenue, northwest corner of 97th street, was adjourned yesterday by William Kennelly until the 19th inst.

Peter F. Meyer will, on Tuesday next, the 9th inst., in the Salesroom, No. 111 Broadway, sell at auction three valuable 5th avenue lots, located between 89th and 90th streets, and a plot of land on Cambreling avenue, between Jacob and Bayard streets, in the 24th Ward. These parcels will be offered by order of the Supreme Court, in partition, and are very desirable. It is hardly necessary to say that the 5th avenue property is in a neighborhood where lots are in considerable demand at good prices and for that reason the offering of these lots from the auction stand will no doubt prove attractive and bring buyers to the Salesroom. Maps and other particulars relating to this sale can be had of the auctioneer at No. 111 Broadway.

Gossip of the Week.

SOUTH OF 59TH STREET.

We are now able to give the facts upon which was founded our statement of last week that it was reported the Washington Life Insurance Company had practically concluded negotiations for the purchase of the northwest corner of Broadway and Cortlandt street, comprising a plot, with old buildings, about 96x123 feet. The terms of sale had been arranged and signed by the three owners interested and agreed to by the insurance company, whose officers attached their signatures to a contract for the purchase of the property at about $1,850,000. Of this sum $600,000 is the price of the corner lot and building owned by D. Appleton, the publisher; $450,000 that of No. 175, adjoining the corner, the owner of which is Charles G. Koss, and the balance the consideration agreed upon for Nos. 177 and 179 Broadway and No. 10 Cortlandt street. The three last-mentioned parcels were bought by the present owner, G. Paulding, a few years ago, from the Germania Life Insurance Company for $600,000. It is stated that the representatives of the Washington Life embodied in their agreement a stipulation that the company was not to be called upon to consummate the sale in the event of the brokers who conducted the negotiations finding themselves unable to buy the existing leases for a sum that is now known to be inadequate. The company appropriated an additional $50,000 for that purpose, but as the New York Steam Co. alone wants about $60,000 for its option of renewal of a ten years' lease of No. 173, that expires on May 1st, 1897, it looks as if the additional sum for buying up the leases would have to be increased to $150,000 to enable the buyer to obtain possession on the 1st of May next, as desired. The brokers, it is said, despair of carrying the deal through successfully. In the meantime, the insurance company has been induced to consider other less costly Broadway sites and may finally decide to purchase one of them.

Isaac Stiebel has sold the two-story brick front and rear buildings, on lot 25x100, No. 169 Mercer street, 125 feet south of Houston, at an advance on $36,000, the price paid by him in June of last year.

Douglas Robinson, Jr., & Co. have sold for an estate to Mandelbaum & Lewine the four-story stone front English basement dwelling on lot 16.8x98.9, No. 27 West 31st street, and the buyers have re-sold it to Blakeslee Barnes for $36,000. The property was last sold in April, 1885, for $25,500.

Brooke & Georger have sold for Peter H. Hynes the three-story brick tenement on lot 22x98.9, No. 161 West 26th street, to Blakeslee Barnes, for $13,500.

Daniel Birdsall & Co. have sold for John T. Williams the six-story mercantile building, on lot 25x100, No. 208 Greene street, between Bleecker and West 3d streets, to George Munro for about $75,000. The buyer recently sold the Folsom Building, No. 834 Broadway, to Mayer Kahn.

The same brokers have sold for Phillip Braender the new seven-story brick business building, on lot 50x103.3, Nos. 36 and 38 East 12th street, between Broadway and University place.

Dr. Thomas M. Dillingham has purchased from the United States Trust Co. the four-story stone front dwelling, 22x60x100.5, No. 8 West 49th street, for about $65,000.

Rowland A. Robbins has sold his four-story stone front residence, 25x65x100.5, No. 22 West 52d street.

Alfred Duane Pell, the present owner of the Pickhardt mansion at 5th avenue and 71th street, has sold the four-story dwelling on lot 23.4x100, No. 436 5th avenue, adjoining his residence on the southwest corner of 39th street.

N. Brigham Hall has sold for Katharine A. Kingsland to Paul Fuller for a client the four-story brick dwelling, on lot 25x100, No. 66 West 4th street, or 70 South Washington square, for about $32,000, and for Eliza H. McCullagh, to J. Howard Wright, the four-story brick dwelling on lot 16.8x98.9, No. 32 West 27th street, for about $40,000.

The Central Real Estate Association was incorporated at Albany on June 29th with a capital stock of $700,000. The directors are Samuel D. Babcock, George P. Slade, Henry B. Barnes, Jacob Wendell and William P. Dixon. It was erroneously stated in this column some weeks ago that the association was the probable purchaser from Richard W. Ievers of Nos. 44 and 46 East 19th street. This week's conveyances show that John Sloane, of the firm of William D. Sloane, was the buyer.

The Broadway Realty Company was incorporated on Tuesday for the purpose of conducting the improvement that has been gotten underway at Nos. 5 to 11 Broadway. The capital stock is $600,000. Directors: John A. Barnard and James C. Ward, of New York; F. E. Crassous, of Hackensack, N. J.; A. P. D. Burden, of Brooklyn, and Edward C. Hollister, of Rutherford, N. J.

James L. Libby & Son have sold for Nicholas Espenscheid Nos. 179 and 181 Wooster street, a plot 50x100, with old buildings, and from Joseph Nussbaum the adjoining property, 25x100, No. 183, west side, 100 feet south of Bleecker street, to David E. Oppenheimer, who has resold the three parcels for about $90,000 to Flora Sawyer. A seven-story store and loft structure, the builder of which will be Frank E. Smith, is to be erected on the site without delay.

NORTH OF 59TH STREET.

William Rankin has sold the plot 50.7x100, on the southeast corner of Columbus avenue and 109th street, which he bought among others at the Bernheimer-Schmid partition sale.

Myer Hellman has sold the five-story brick tenement with stores on lot 25x100, No. 1832 3d avenue, between 94th and 95th streets, at about $20,500.

Stabler & Smith have sold for the estate of Chauncey Stevens, the three-story dwelling 19x50x102.2, No. 154 West 92d st, to Hulbert Peck at about $26,000.

H. Douglass Potter has purchased from Cohen & Endel a full lot on the east side of Columbus avenue, 50.7 south of 109th street, for immediate improvement.

The four-story stone front residence, on lot 28x100.5, No. 15 East 69th street, has been sold by the executors of the will of the late Charles Blum.

Horace S. Ely & Co. have sold for Elizabeth W. Aldrich the four-story brick dwelling, on lot 19x100.8, No. 23 West 88th street, to F. M. Crowley.

George C. Edgar's Sons & Co. have sold the four-story stone front dwelling, on lot 20x100.8, No. 17 West 89th street

Max Simon has sold for F. Werner the five-story double flat, 26x79x100.11, No. 148 West 101st street for about $24,500.

Barnett & Co. have sold for Thomas Brown the three-story stone front dwelling on lot 12.6x50x99.11, No. 31 West 128th street.

Picken & Lilly have sold for William H. Picken, No. 241 West 112th street, one of his row of new three-story dwellings, 17x50x100.11, to William Lewis, for $16,000.

NORTH SIDE.

Petty, Soulard & Walker have sold for William F. Cox, a plot 100x100, on the north side of 144th street, 125 feet west of St. Ann's avenue, to Alice M. Howland, for $14,000.

The Roman Catholic Church of St. Anselm has bought from Danzig & Kutz, a plot 278x180, at Wales avenue and 155th street, for $35,000, and proposes to erect thereon a parochial school house.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

REVIEW AND RECORD.

BROOKLYN, JULY 6, 1895.

Notes Gathered Here and There.

PROPOSALS FOR CITY WORK.

Proposals will be received at the Department of City Works until July 15th at 12 for paving Eldert street from Hamburg avenue to Knickerbocker avenue; until July 16th at 12 M. for grading and paving Columbia Heights between Middagh and Pierrepont streets (except block between Orange and Pineapple streets) with asphalt, Hooper street from Bedford avenue to Lee avenue with asphalt, Ninth avenue from Third street to Fifteenth street with asphalt, and Pineapple street from Fulton street to Columbia Heights with asphalt.

THE DEPARTMENT OF BUILDINGS.

Commissioner Wesley C. Bush has inaugurated the presentation of a semi-annual report of the work of his department to the head of the city's administration. It need hardly be said that the report is as comprehensive in its details as it is prompt in its appearance. It is dated the 3d inst., and yet covers a wide range of detail as to character, cost, location, etc., of the building work of Brooklyn from January 1st to June 30th last. We have only space at the moment for the main facts, leaving others to be treated at another time. The following is a comparative statement of the applications for the half year:

	Jan. 1 to June 30, 1895.	Jan. 1 to June 30, 1894.	
No. of permits for buildings.....	1,899	1,759	Inc. 140
No of permits for alterations....	1,220	836	Inc. 384
Estimated cost of new buildings.	$7,831,354	$7,040,905	Inc. $790,449
Estimated cost of alterations....	923,251	676,688	Inc. 246,563

The fact that the applications for new buildings and alterations showed an increase of over $1,000,000 as compared with the first half of last year will not be overlooked. The following monthly distribution of the applications for permits for new buildings with their character and estimated cost will prove equally interesting reading:

Months.	Brick.	Frame.	Total.	Estimated cost.
January.....	95	107	202	$914,185
February.....	28	89	117	678,440
March.....	182	172	354	1,825,745
April.....	165	314	479	1,637,387
May.....	221	247	468	1,783,010
June.....	117	162	279	992,587
Total.....	808	1,091	1,899	$7,831,354

THE BUDGET FOR 1896.

The Board of Estimate, after acting upon the estimates of the various departments, and having cut down the budget for the coming year to within the legal limit of two per cent., has submitted the same to the Common Council for approval, where it may be further reduced. It is now about one thousand dollars within the legal limit. The difference between the amounts asked and appropriated shows that there has been considerable cutting to bring them within the legal limit, a proceeding in which all boards of estimate take particular pride. Among the more important appropriations are the following: Department of Public Instruction, $2,564,263; Department of City Works, $2,017,691; Fire Department, $1,412,183; Police Department, $2,279,900 (this is an increase of $321,000 over the amount appropriated for 1895); Department of Public Parks, $391,400; Board of Elections, $200,000; Department of Health, $187,151; General Purposes, $342,070. The total

amounts voted for the use of the various police and civil courts was $131,350. The following is a summary of the appropriations under the chief heads:

Statement No. 1.	Principal of City Debt	$ 334,081.01
Statement No. 2.	Interest on City Debt	1,748,667.05
Statement Nos. 4 to 8.	General Purposes	228,716.36
	Total	2,311,464.42
Total City		$10,119,921.50
Total County		1,172,191.52
Grand total (exclusive of City debt, etc.)		$11,832,213.02
Less Revenue Fund		900,000.00
Less Bridge Receipts		350,000.00
Grand Total		$10,582,213.02
Amount appropriated for 1895		$10,518,835.29

The Board of Aldermen act on the appropriations at their first meeting in October.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee they mean as follows:
1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.
2d—C. a. G. means a deed containing Covenant against grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached charged or encumbered.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. C) means not summoned. (1) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments

BUILDING MATERIAL MARKET.

NEW YORK.

BRICKS.—There appears slight difference of opinion over market for Common Hards at the present writing. No one claims any improvement in tone, but some think the position about steady, and others assert that there is distinct evidence of a slightly easier feeling than one week ago. Our observation leads us to rather endorse the latter view although not enough so to materially shade quotations, or to believe the tameness can be more than temporary in character. The week opened with a big fleet of barges on hand, and more have since come along, against which considerable selling took place, but by no means sufficient to clean up, and it is more than likely that in some cases where prompt selling was desirable or necessary a small allowance was made, indeed it would have to be granted under existing conditions if there was a positive determination to secure a customer. But as a rule there seems to be a notion there is no special need to hurry matters at the moment. It is well known that almost invariably just before the Fourth supplies are sent forward freely, and in numerous cases with an idea of getting them into prompt cash. Failing that, however, holders prefer to carry and take their chances on the incoming week. There is certainly good consumption and quite likely to be more of it, with chances largely in sellers favor. Quality is generally averaging fine. The demand for Pales continues about as before. Small odd parcels are not much in favor and will hardly bring a price warranting the trouble and expense of shipping, but a full straight cargo of carefully selected stock could in all probability be placed at a respectable figure, say $2.25 or upward.

It may be interesting to know how they have arranged matters in Chicago as shown by the following despatch received since our last report: "The price of brick advanced 20 per cent through the action of the Illinois Building Material Company, which is in almost absolute control of the Chicago market. The advance affects only common building brick made in and adjacent to the city. The annual output is about 800,000,000, of which about 80 per cent is made by the firms which comprise the Brick Manufacturers' Association. This association has entered into a combine with the new concern known as the Illinois Building Material Company, of which O. Burdick is president. He and the other officials deny that it is a trust or combine, but they decline to state the purpose of the organization. It is known, however, that the concern claims to have bought practically the whole output of the Chicago manufacturers, and that contracts have been signed binding the manufacturers not to sell bricks to contractors in or near the city."

DOORS, SASH AND BLINDS.—Local operators do not as yet find any radical change in the situation. Demand shows here and there some gain, but buyers move with care and cannot, as a rule, be induced to enter orders beyond the limit of probable early natural requirements. Values are firm, and while there seems to be no immediate tendency to force an advance, a stiffening tone on lumber and increased cost of trimmings and labor make it very possible that manufacturers will soon be compelled to look for higher figures. The Western markets are reported by an exchange as follows: "The sash and door market remains about as it has been for the past few weeks. What little change there has been is for the better. The call for regular stock sizes has been increasing, while the demand for special work has just about held its own. All of the orders either for stock or odd work are small and have been all the season. The outside dealers have only been buying as they needed stock, and have not been preparing for anything that might come in the future. This method of doing business has so distributed the trade that there has not been at any time any pronounced dullness.

HARDWARE.—Very satisfactory conditions have prevailed in the general hardware trade for some little time past. Business picked up in volume and broadened somewhat in the area of distribution, and has extended to pretty much everything in the way of staple articles in season. There is something of a lull just at the moment, but an early revival of trading is looked for as traveling salesmen recently returned from their tours report an unusually small accumulation at many interior localities, and dealers about making up their minds to replenish freely this fall. The chances for builders' hardware are considered particularly good, as a large consumption seems to be assured for both city and country work. With the improvements in business and increased cost of metal prices on all kinds of hardware are very firm and tending upward. There are no important changes as yet on shelf hardware. On wrought iron pipe rates seem to be steadily working up, and at the moment ruling discounts from list are as follows: 1¼ inches and under, plain, 62 and 10 and 5 per cent.; 1¼ inches and under, galvanized, 57 and 10 and 5 per cent; 1½ inches and over, plain, 70 and 10 and 5 per cent.; 1½ inches and over, galvanized, 60 and 10 and 5 per cent.

LATH.—As yet the market has hardly demonstrated its ability to get upon a thoroughly sound satisfactory basis. Just after the writing of our last report a leading receiver gave us a "straight tip" that all the lath intended for this market had come along and a positive permanent improvement was immediately to follow. But just what did follow, however, was another run of heavy arrival and a set back once more on the value line until $1.70 became the best rate to be depended upon and some business in lots containing a proportion of sawed wood stock sold less. At the close there has been trading at $1.75, with renewal of the firm talk and another prediction of small amount to come, with some indications said to prevail of growing wants among local dealers. A great deal of the week's business has been secured from outside custom, Newark, in particular, helping out by taking some of the big cargoes. About 33,000,000 lath came into port coastwise during June.

LIME.—The market has remained in a very firm position and receivers are feeling in more cheerful and hopeful frame of mind than for some time past. There has been more stock to sell but not much of it, and we are informed that pretty much all the business was consummated at 75c for common and 85c. for lump, while at the close 80c and 90c. are asked respectively, and there seems to be a feeling that those rates will surely be obtained. The quantity coming forward is reported small. The offerings from sources outside of the eastern points of production are not considered seriously competitive and the chances for consumption are steadily growing fuller both local and near by.

LUMBER.—The influence of the holiday has been of a somewhat quieting character upon both the retail and wholesale trade, and conditions remain practically unchanged The first six months of the year has not shown the general animation in lumber circles many had hoped for, and many operators are giving way to more or less complaint, yet after all trade has been very fair and promises to do much better before feeling the usual effects of winter conditions. Some of the favorably located yards have really made a very excellent distribution of stock, and are now securing renewals in part from arrivals previously contracted for, and in part by entering upon engagements for later delivery, and it is assumed that many more will follow, not only to provide for current necessities, but to make the proper provision for an accumulation of stock for trade requirements between seasons. Indeed, there are many reasons to calculate upon some pretty lively trading in staple sorts of lumber during the next four or five months.

Hemlock has proven a particularly satisfactory line of stock in this market for some time. Its usefulness for many purposes, has never been really questioned, the objections to handling it interposed by many artisans are gradually being overcome, and its low cost gave it much attraction under the economic methods of consumers in vogue. Manufacturers have not generally cut freely in sizes adapted to wants of this vicinity, and in consequence local buyers have found desirable sizes so scarce as to compel a little competition over such offerings as were within reach, and in strengthening of values accordingly.

Carolina Pine still encounters a somewhat fluctuating demand, but is getting a fair amount of attention for dressed, and now and then some good sized orders for rough, with former rates fully and readily sustained, and advices from primal points indicating the possibility of more uniform action among manufacturers likely to lead to an advance.

White Pine does not present an altogether clear and positive market. In some cases, and probably naturally mostly among buyers, there are constant insinuations of very low terms tendered, and evidences that there will be plenty of stock offered all the season, but that view is meeting with more general denial than heretofore. It is said that the direct tenders from primal market heretofore so conspicuous a feature in the trade are gradually lessening, and the action of Western mill men of late in working up their prices is an indication that they commence to see reason, for seeking a better return upon their output Export dealings continue fair but without radically new features.

Yellow Pine is nominally steady, because it is already too low for additional decline, and a great many operators, here and at primal points, are making a commendable effort to place the market upon a sounder footing, but there is still an absence of unanimity of action sufficient to shut off unwholesome competition, and especial complaint is made over the tendency of many manufacturers to sell direct to consumers.

Spruce has been kept in very good general condition, and sellers have no reason for serious complaint over the state of the market. Last month's receipts from the Eastward were very liberal from the Provinces, and a great many cargoes came in from Maine that might fairly be called unexpected, but so much of the supply as had to be offered on open market found custom without encountering any serious difficulty or materially influencing the line of value as compared with the advance secured early in the spring. Narrow stuff naturally sometimes struck a poor period for custom, but wide dimensions and long stuff is reported to have sold without difficulty or any special effort on part of buyers to cut down the line of cost. Northern spruce has been very scarce, and even advanced bids could not be depended upon to draw out supply. West Virginia stuff has generally satisfactory

DYCKERHOFF
PORTLAND CEMENT

Is superior to any other Portland Cement made. It is very finely ground, always uniform and reliable, and of such extraordinary strength that it will permit the addition of 25 per cent more sand, etc., than any other well-known Portland Cement, and produce the most durable work. It is unalterable in volume and not liable to crack. The foundations of many of the most important buildings recently erected in this city were constructed of the Dyckerhoff Portland Cement, such as the Statue of Liberty, Brooklyn Soldiers' and Sailors' Memorial Arch, Washington Memorial Arch, Grant Monument, Riverside Park, Equitable Life Insurance, New York Life, New York Times, World, Puck, Judge, Metropolitan Telephone, Metropolitan Opera House, U. S. Army, U. S. Trust Co., Union Trust Co., Farmers' Loan and Trust Co., Postal Telegraph Co., Corn Exchange Bank, University Building, Delmonico's, Hoffman House, Hotels Imperial, Savoy, Waldorf, New Netherlands.

trade, and, as usual, is found particularly useful to buyers who want only small parcels of special size.

Hardwoods are meeting with uncertain attention for general run of stock. A place can always be found for a little poplar, but rates are still variable, according to circumstances immediately governing deals in hand, and sellers gain no advantages at the moment. Quartered oak is firm and retains steady demand, with considerable custom also to be found for plain cut stock, but for other descriptions of hardwoods the open demand at the moment is quite limited, and custom cannot be hurried unless seller will consent to modify the line of cost. There appears to be considerable disappointment over the business in ash on both home and foreign account. Cypress is selling about as well in proportion as any other line of stock, and those who make a specialty of handling it reiterate the hopeful view heretofore expressed in regard to ability to steadily broaden the circle of consumption.

GENERAL LUMBER NOTES.

THE WEST.

The *Northwestern Lumberman* as follows:

It is noticeable that there is almost an unanimously prevalent belief that there is to be a rising demand for lumber as fall approaches. But this faith has not reached the state of certainty, and hence there has been no general and spontaneous movement among wholesale and retail buyers to purchase stock. True, there has been a considerable movement of stock and an amount of distribution in excess of that of last year. But it has altogether been to meet a current demand for consumption. Accumulation of yard stocks, of all kinds, except desirable specials, has been avoided. This attitude of dealers is likely to continue until August. Then if indications shall be favorable for a heavy fall trade, with a prospect of even but a slight advance of prices, there will be such a grand rush of buying dealers all along the line as has not been seen in several years. This is spoken of in a general sense, but it is peculiarly applicable to the northern pine trade, in which larger stocks are carried in yard than those of any other kind of lumber.

At Chicago, receipts for the week were light, consisting of a variety of stuff, little of it being especially desirable. Cull inch, hemlock and pine piece stuff, a little lath and shingles constituted the bulk of stuff arrived. The market is scarcely sufficiently well supplied to develop any pronounced features. It is being fed by spoonfuls, as one dealer puts it, and the portions are picked up from the mill docks and doled out to suit the shippers rather than the yard buyers. But it all goes after a little effort in calling up the yard men who are known to be susceptible of persuasion. The dealers would like to see heavier piece stuff offerings, but the mill operators are dissatisfied with prevailing prices. The yard dealers refuse to listen to higher prices at present, preferring to wait until the advancing season shall clear away some doubts which are still brooding in their minds. The Bigelow tows from Washburn make their regular runs bringing in piece stuff which sells at $9 for short, $11 for slims and $12 for long wide joists. Manistee short stuff, in which there is no cream, sells for $8.50. These prices are all for green stock.

The Mississippi Valley *Lumberman* as follows:

Reports to *The Lumberman* from the head of the lakes tell of a healthy movement eastward by lake shipment, and Ashland and other points further eastward along the lakes are sending more lumber east now than they were a few weeks ago. Last week was an especially active one at Ashland, all previous records being outdistanced in eastern shipments of lumber. In the Wisconsin valley, while the demand is not greatly increased, there is a better feeling among mill men, who, like their neighbors in the Mississippi valley, are preparing to send out advanced lists the coming week. At Winona and Dubuque the demand is not much improved, but the fine crop outlook is encouraging lumbermen to expect better things in a month or so. The Chicago trade has been but fair the past week, Chicago being a little behind Wisconsin and Mississippi River mill points. This is due, undoubtedly, to the less favorable crop outlook in the States immediately east of the Mississippi River, where wheat, oats, rye and hay will be but half a crop. But the farmers in those States are not so dependent upon grain as are those west of the river where a bountiful harvest is on the programme.

METALS.—A firm tone and good general activity continues all around, but especially so for iron and steel and their finished products. A recent semi-official report says that "not only is the entire standard Bessemer product of Lake Superior iron mines for 1895 sold, but non-Bessemer ores of good record have been in such demand that ten and fifteen cents advances have been made on the limited stocks yet available of the 1896 product. In pig iron the marking up of prices North and South has scarcely checked buying, but it has tended to keep the business of Northern furnaces, at least, nearer home." There has been another advance of $2 per ton in the price of bar iron, and manufacturers assert that further marking up is quite likely should demand continue unchecked. Pig iron, too, is up again at average advance of $1 per ton, which sets the price for the market in the East. Number 1 X is advanced to $13.50 No. 2 X for foundry, $12.50; No. 2 plain to $11.75, and gray forge to $11.50 per ton. The above prices are at the furnace, while to tide water points the price is 50 cents per ton more on each grade. Commenting upon the above a market report says: "Leading furnacemen in the Pennsylvania region are sold up on the production and

not in a position to take other than small orders requiring deliveries this month. The leading Southern producers, particularly those that figure at all prominently among the Eastern trade, are in somewhat similar position. Concerns not as favorably situated naturally follow the leaders in marking up prices, and, upon the whole, secure fair orders. Consumers do not purchase at all freely at the top prices, but take enough iron to solidify the strong features of the market." And another report as follows: "With all wage scales settled, the iron trade enters upon the second half of the year, with prospects of the heaviest summer output in years. Structural mills, plate and bar mills, East and West, are well supplied with orders, and rail mills have a tonnage before them that is in decided contrast to their beggarly orders a year ago."

NAILS.—Reports are much the same. The market appears under perfect control, and the advanced rates for this month which were given in our last issue and are regularly quoted annexed have excellent support at first hands, with no evidence that a cutting policy is pursued by jobbers or smaller dealers. Demand has been very good and of a general character, although there are some evidences that addition to cost is making buyers a little more careful, especially those who had previously invested with some freedom and have a good working stock under control. We quote cut at 1.30@1.35 per keg for car lots, and 1.45@1.60 per keg for parcels from dock and store for iron, and add 3c. per keg for steel; wire, 1.55c.@1.65c. for car lots, and $1.70@1.80 from dock and store.

PAINTS, OILS, ETC.—Business continues of moderately active proportions and mainly in routine form at the moment. Buyers have no objection to the market and practically nothing to enter protest against, but their working supplies in hand are fair, with no unusual distribution just at the present time, and they naturally feel indisposed to unnecessarily increase their obligations. The selection of goods they make are of staple character, and there is not likely to be call for assortment until later in the season, but when it does come the chances are the quantity wanted will be quite full. Traveling salesmen are now pretty nearly all back from their trips, getting matters in shape for the fall effort, and they report moderate accumulations among retailers so general that a full line of fall orders would seem to be a foregone conclusion. On both domestic and foreign goods prices are held about steady. There is still some talk of a coming change in leads, but of less confident character. On leads the Association figures last announced are as follows, subject to change without notice: Pure white lead, dry and in oil, red lead or litharge in kegs, in lots of less than 500 pounds, 6c.; in lots of 500 pounds and over, 5½c. Red lead and litharge in barrels and half barrels, ¼c. per pound less than prices in kegs. White lead in 25-pound tin pails, 1½c.; in 12½ pound tin pails, 1c.; in 1 to 5 pound tin cans (100 pounds in case), 1½c. per pound above keg price. Terms: On lots of 500 pounds or more, sixty days, or two per cent. discount for cash if paid within fifteen days from date of invoice. Special price for dry white lead in barrels. The above prices and terms supersede previous prices and terms offered by this company. Linseed oil retains very good attention, and the market is firm throughout, assisted by indications of a short crop of domestic seed and less competition among crushers. We quote at 54@55c. for Western, 56@57c. for City from domestic seed and 56@57c. for do. from Calcutta seed. Spirits turpentine meets with merely ordinary trade demand, and the market shows no important features, prices remaining much the same as last advised. We quote at 29@29¾c. per gallon, according to quality, quantity, delivery, etc.

TAR AND PITCH.—Moderate dealings are taking place at first hands, the wholesale trade having lightened this week in consequence of the holiday influences. Desirable supplies, however, appear rather light and well controlled, with owners firm in asking full prices all around. We quote Tar at $1.75@1.90 in pine or Wilmington bbls., $2.65@2.75 in pork bbls. and $3.25@3.50 in oil bbls.; Pitch, $1.70@1.80.

LUMBER.

Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors, and altogether it is impossible to give a line of retail quotations thoroughly reliable in character.

THE events of the past week have not changed the feeling in Wall street, although so far the breaks have been limited to the mysteries, such as New England, Sugar, Chicago Gas and Leather. The first effects of a change in speculative feeling on either side is always in this class of stocks, the more substantial ones taking their turn later, but of course in a lesser degree. As it is there are signs that the liquidation is not yet over in any of the issues previously named. It is hardly possible that a recovery will come before the railroads have from some cause or another sympathized with this movement. As likely a cause as any is the probable return to this side of large amounts of the new United States 4s sold in Europe in the spring, when the bonds are delivered to the purchasers next month, and the effect this movement will have on exchange. People who have been steadfastly bullish until now and confident of the situation are beginning to look forward with some anxiety to the time when these bonds will cease to be tied up by being represented in the hands of subscribers by syndicate certificates only.

NEW capital applications in London for the first half of the year have amounted to $260,000,000, which figures compare very favorably with those for the same time in 1894 and 1893 when they were $150,000,000 and $125,000,000 respectively. The amount for the first six months of 1892 was $345,000,000, but the falling off in the last half of that year, of which there is no sign this year, was very sharp. On the whole the promises of sound activity in business operations in Great Britain are better than those given in any year since 1890. Prices of commodities, too, have maintained a rising tendency all this year in contradistinction to the movement which had previously characterized them since the year last named. Similar indications of bettered conditions are to be found in other parts of Europe, though perhaps in not quite so pronounced a degree. Beyond this there is nothing to be said. The summer dullness is at hand and all that can be expected is that there will be no falling off; the acceleration of the speed of the trading movement will doubtless come in the fall under the incentive of the issue of some great loans now on the carpet.

EXPERTS in watermanship may disagree as to the value of the recent international regatta on the Thames in determining the relative efficiency of different methods of rowing but there can scarcely be two opinions that these "friendly" competitions may easily engender no slight amount of ill feeling. Everybody indeed, says, when the occasion requires it, that international rivalry in sport is a good thing, because forsooth it increases the scanty stock of kindliness which one nation has for another; but to be candid, surely the only "good-feeling" produced in any appreciable quantity is the self-satisfaction which tickles the victors. We venture to say that the Cornell incident at Henly has been as powerful an irritant to the animosities of the two nations concerned in the aquatic "larks" of these packs of school-boys, as a stiff diplomatic controversy. The editorial ink-stands on two continents must have run almost dry discussing the momentous problem whether the Cornell crew did or did not act with sportsmanlike propriety in taking the race their rivals forfeited! And the absurd phase of all the talk and pother made over these international contests is that none of them determines the very point which tacitly at least national pride considers they definitely settle, namely the superiority of one people over another in a given department of athletics. The defeat of Cornell in no way measures the superiority of English rowers as a class to American rowers as a class; and had the Ithacans been victorious their success would have had no greater significance in the reverse direction. Indeed these tests have no precise scientific value at all in determining the degree of national proficiency, and this is so particularly when the competition is held, as must almost necessarily be the case, under local and climatic conditions foreign to one of the contestants. The last race for the America's cup and its sequel, the visit of the Vigilant to English waters enabled us to see clearly the importance of "local conditions." The American yacht, victorious at home in each trial with the Valkyrie was beaten abroad in eight out of thirteen races by a boat inferior if anything to the rival she encountered in America. "Good-feeling" between nations is still, like other articles that cross the frontiers, chiefly a commercial commodity. It passes to and fro under the same conditions as rum or cotton goods, that is so long as the transport of it pays. The patriot, (using the word in its everyday meaning) is in the main only the savage in another covering and probably no savage when vanquished in race or trial of skill ever felt the better side of himself irresistably getting uppermost or his kindliness expanding at the sound of the cheering of his victors. Human nature doesn't act that way.

Protection of High Buildings from Fire.

In reference to the demands that have been made upon the city to increase the system of protection against fire to meet new demands created by the recent revolution in office and hotel building, the following statement of Chief Bonner to a RECORD AND GUIDE reporter last year will bear repetition: "All buildings erected in this city with the steel-cage construction I look upon as dangerous in case of fire, for the reason that when they pass beyond 125 feet in height they get beyond the control of our department. We have nothing up to date that will aid us in extinguishing fires above that point. We have looked all over the country for them, but up to the present time have not been able to obtain any appliances that will warrant us in saying that those buildings in their upper stories are within our control in case of fire."

The East River Bridge.

The East River Bridge Commission has received from the East River Bridge Company an offer whereby the latter's franchise may be acquired by the public. It is to deliver the company's rights and franchises for the bridge in question, several pieces of real estate, and a bank deposit of $53,000, for $200,000. The offer is made on the condition that the bridge and its approaches be so constructed that the trains of the Brooklyn Elevated Railroad Company may be operated over it. The Commission will discuss this proposition later on. Frank Sperry of Brooklyn and Frank E. Pavey of New York have been appointed counsel to the Commission.

MERCANTILE.

R. 927.—Fourth avenue, southwest corner 19th street, 131 feet on 4th avenue by 200 feet on 19th street. Central Real Estate Association, No. 309 Broadway, owners; Samuel D. Babcock, president; Geo. P. Slade, treasurer, and Alfred R. Kirkus, secretary. Richard Berger, No. 309 Broadway, architect, and Edward Lindsey, No. 21 West 24th street, consulting architect, representing the lessees, the American Lithographic Company. The building will consist of twelve stories, basement and sub-basement, and be of steel skeleton construction. The front will be of granite, iron, buff brick and terra cotta, and the roof asphalt. Eight steam elevators, steam heat, steam plant for heating and power, electric light and electric plant for lighting and machinery will be put in. The building will be specially constructed for the lessees' business and of unusual strength, in view of the great weight of the presses that it will have to contain. There will be a driveway in the centre of the 4th avenue front into an open court, from which all shipping will be done, the top floor will be arranged for the artists and engravers of the company. The building will cost about $800,000, and plans will be finished in about two weeks.

R. 956.—Ludlow street, Nos. 81 and 83. Purdy & Co., Boston, Mass., owners. Horenburger & Straub, No. 122 Bowery, have drawn plans for a six-story and cellar factory, to have iron and brick front, galvanized cornice and tin roof.

R. 919.—Eighteenth street, Nos. 7 and 9 West. S. & H. Corn, No. 139 5th avenue, owners. L. Korn, No. 621 Broadway, has drawn plans for a seven-story cellar and sub-cellar skeleton construction store and loft building, to cost $150,000. Specifications will call for steel and iron beams, fire-proofing, limestone, buff brick and terra cotta front, asphalt roof, copper cornice, skylights, electric lighting, electric freight and passenger elevators, steam heating, open plumbing.

*R. 863.—Cedar street, northwest corner of William street, fifteen-story basement and sub-cellar fire-proof, steel skeleton construction office building. Size, 45x70 feet. Cost, $500,000. New York Realty Co. (Flake & Dowling), owners. Ralph Townsend, No. 1300 Broadway, architect. Specifications will call for Indiana limestone front, brick and cement roof, structural and ornamental iron-work, vault lights, electric elevators and pump, electric lighting, iron stairs, marble treads, oak and mahogany cabinet trim, hardwood flooring, Numidian marbles and bronze for the first story, hall, tiled halls and toilet-rooms, exposed nickel-plated plumbing and steam-heating plant. First floor and basement are to be fitted up for banking offices.

*R. 909.—Wooster street, Nos. 179 to 183, one seven-story store and loft building. Julius Frank, No. 287 4th avenue, has been selected as the architect for this building and he has just started work on the plans.

Apply to Chas. E. Runk, 47 Broad street, Room 18.

Real Estate Market.

Despite the lethargic summer influences to which many of the professional buyers or sellers, traders and operators, as well as some of the more active brokers have succumbed, sales continue to be made with about the same frequency as in the same month of seasons gone by. This week's reported transactions represent a total investment of not less than $1,500,000. Sales of down-town and other business property have fallen off. It is said, however, by brokers in a position to know, that their sale will continue at intervals during the hot months. Their assertions are based on the number of deals that are in process of negotiation. Up-town property, especially vacant land, has been largely sold in the past few days, but the demand has been exceedingly moderate for improved parcels.

The following are the comparative tables for New York Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1894 and 1895.

Another week devoted exclusively to auction sales of a legal character has quite naturally failed to attract other than a slim attendance daily at the Broadway salesroom. The buying contingent has wholly consisted of parties interested in the various actions leading to the sales and professional operators on the lookout for summer bargains. The majority of the parcels offered were of a very ordinary description. On Tuesday Peter F. Meyer & Co. sold in partition a 24th Ward block front at a fair price, and offered under the same decree of court one of three lots on 5th avenue, south of 90th street, that had been described in the legal notice. Bidders for 5th avenue lots were noticeable for their absence on Tuesday, however, and there being no advance on an offer of $22,500 made in behalf of the heirs the referee decided to adjourn the sale of the plot to October 3d.

On the same day D. P. Ingraham & Co. had an annoying experience with Lewis S. Samuel, a former well-known operator, to whom the flat No. 178 West 135th street was knocked down on his bid of $3,400 over a mortgage for $22,000, with accrued interest from December 1, 1894. Everybody in attendance at the sale thoroughly understood the auctioneer's announcement of the terms and the amount of incumbrance due except Mr. Samuel. At any rate the latter declined to buy at the price offered by him on the ground that he had failed to comprehend the exact meaning of the statement made from the stand. His refusal to acknowledge his bid necessitated a second offering of the property. Tuesday's adjournments were Nos. 49 and 57 West 68th street, by William Kennelly until the 23d inst., and a vacant plot on the south side of 123d street, 100 feet west of Amsterdam avenue, by D. P. Ingraham & Co. until August 10th. On Wednesday the same auctioneers withdrew from foreclosure sale Nos. 310 and 312 West 68th street. On Thursday Richard V. Harnett & Co. adjourned until the 25th inst. a sale of No. 51 West 68th street, and yesterday Smyth & Ryan's sale of Nos. 8 to 14 Clinton street was postponed until the 26th inst.

Gossip of the Week.

SOUTH OF 59TH STREET.

Frederick Southack & Co. have sold for D. S. Walton the plot 71.6x87.6x71.8x88, with old buildings Nos. 20 to 24 North Moore street, to Adolph Kuttroff, of the firm of Pickhardt & Kuttroff, for $80,000. The buyer will erect a seven-story factory on the site. Mr. Walton purchased the property last September for $70,000, and was reported to have disposed of it a few months later to a buyer whose name was not made public. The report could hardly have referred to the Kuttroff purchase, unless there has been unusual tardiness in giving out the details.

Boehm & Coon have sold the Diamond Exchange, a modern ten-and-a-half-story iron, stone and terra cotta office building, on lot about 23.6x65.9, No. 14 Maiden lane. The consideration agreed upon is about $375,000, largely consisting of other property to be taken in exchange.

Douglas Robinson & Co. have sold for Richard C. Jackson the four-story stone front dwelling, on lot 25x98.9, No. 34 West 32d street, to Archibald D. Russell for about $60,000.

Mandelbaum & Lewine have purchased from the Dickerson estate the six-story stone front tenement with stores on lot 30x about 79 No. 211 Mott street, for about $27,000.

We were in error last week when stating that Mandelbaum & Lewine had sold the dwelling No. 27 West 31st street. The price mentioned was the amount they have agreed to pay for the property of which they still retain the ownership.

Bryan L. Kennelly has sold for James Henderson the four-story brick building with store on lot 19.8x80. No. 228 7th avenue near 23d street to Mrs. Eleanor Robinson, for $23,000. The property was sold under foreclosure by Mr. Kennelly on June 17th for $22,050.

Geo. R. Read and John N. Golding have secured for the American Tract Society a loan of $1,250,000, from the New York Life Insurance Co., to run for three years at 4½ per cent, on the new twenty-two-story building at Nassau and Spruce streets.

NORTH OF 59TH STREET.

The St. Nicholas Skating and Ice Company, Chandler P. Anderson, president, has just concluded the purchase of a site for a model ice skating rink on the north side of West 66th street, between Columbus avenue and Central Park, West. The plot comprises nine lots, three of which, 100 feet east of Columbus avenue, were bought of Charles T. Barney, two adjoining of August Mehler, the next two of John L. Miller, and the others of William O'Brien. The total cost will be about $130,000. Brokers, James M. Stewart & Co. The plot sold by Mr. Mehler was purchased in March, 1889, for $9,950, and the similar plot sold by Mr. Miller changed hands on August 1, 1891, for a consideration of $17,450. They have been disposed of at about $29,000 per plot.

T. S. Clarkson & Co. have sold for Mrs. Moulton a lot, 25x102.2, on the north side of 76th street, 170 feet east of 5th avenue, to Eugene Schieffelin at $35,000 for improvement.

Ottinger & Bro. have sold to Builder Felix Krupp for immediate improvement a plot 100.11x100 on the southeast corner of Morningside avenue East and 117th street. The buyer will erect four flats in accordance with plans filed by the sellers some time ago.

Henry H. Dreyer has sold for Mr. Ransey the vacant block front, 211x81x178x75, on the north side of 214th street, between Kingsbridge road and Amsterdam avenue, to John Irving, Jr.

M. Bargebuhr & Son have sold for L. Guggenberger the five-story stores and flat on lot 25x95, No. 2103 8th avenue, between 113th and 114th streets, at $27,500, and for Mrs. E. Lotze the three-story stone front dwelling on lot 16x100.5, No. 250 East 61st street, to Felix Levy, at $14,000 in a trade for the latter's five-story store and tenement on lot 27x100.11, No. 177 East 102d street, which is accepted at $27,000.

Sam Goldsticker, of the firm of L. J. Phillips & Co., has sold for Thomas L. Watt the vacant block 199.10x750, bounded by Lenox and 7th avenues, 144th and 145th streets, comprising sixty lots, to John D. Crimmins, for something under $400,000. The buyer and Thomas E. Crimmins, it will be remembered, recently purchased through the same broker the block just south of his latest purchase, and it is announced that both blocks will be improved without delay by the erection of detached and semi-detached dwellings that will be models of their kind.

Chas. Griffith Moses has sold for Samuel L. Laderer, a plot 48.4x106x46.8x92.6 on the east side of Kingsbridge road, 25.10 north of 187th street, to Dryfoos & Strauss.

William A. Wheelock has sold the four-story stone front dwelling,

16x50x80, No. 864 Lexington avenue, near 65th street, to L. Finelite, for about $16,250. Broker, L. Froelich.

Builder George W. Levy has sold the three-and-a-half-story American basement dwelling, on lot 17x102.2, No. 309 West 80th street, to a Mr. Foy, for about $23,500.

Frederick Southack & Co. have sold for W. K. Everdell, at about $80,000, the two five-story brick flats, Nos. 57 and 59 East 86th street, that were recently acquired by the buyer from Gutwillig Bros., as part consideration for Nos. 3 and 5 West 18th steret.

John Davis has sold from the plans for Builder S. W. B. Smith the new five-story flat in process of construction on the lot 25.11x100, northwest corner of Amsterdam avenue and 100th street.

John Finck has sold for Mrs. Bertha A. Haigh the four-story stone front double flat on lot 25x100.5, No. 333 East 69th street, to John Bohn for $20,000.

C. R. Gregor & Son have sold for Russell Sage a plot, 50x100.5, on the south side of 69th street, 150 feet west of Central Park West, to Builder William E. Diller for improvement.

Barnett & Co. have sold for Adelheid Welcke the two-story and basement brick house, 17.6x45x99.11, No. 23 East 133d street.

Oeters & Kempe have sold for Elizabeth Erskine the three-story stone front dwelling, No. 157 West 87th street, to William Moller, for about $20,000.

NORTH SIDE.

C. C. Hottenroth has sold for Michael Gent, No. 2505 3d avenue, a lot 25x100, with frame house near 136th street, to John Haffen for $14,000.

M. Bargebuhr & Son have sold for H. DeGraff a lot on Teasdale place to Felix Levy for $2,000.

J. Clarence Davies has sold for William Beehler a plot, 33x146, on the west side of 3d avenue, 66 feet north of 150th street, to Brewer William E. Ebling, and for James E. Burnet a lot, 25x100, on the south side of 168th street, about 160 feet east of Franklin avenue, to Eugene Salvatore for $2,200.

Penner & Galitzka have sold for Charles Hagedorne a plot, 50x100, on 3d avenue, between 170th and 172d streets.

R. D. Barnum has sold a lot, 26.3x139, on the west side of Tinton avenue, 216.5 south of 169th street, to John T. McAndrews for $2,300.

E. Colletti & Co. have sold for Hugh N. Camp to A. J. Simendinger a lot, 25x150, of the Kingsland estate on Tremont avenue, Morris Heights, for $1,500.

LEASES.

De Selding Bros. closed, on Monday, one of the most important leases to which our attention has ever been called. It is that of the property on the southwest corner of 4th avenue and 19th street, a plot, 131x200, with a twelve-story building, to be erected by the owner, the Central Real Estate Association, to the American Lithographic Company, at an annual rental that falls little short of $80,000. To complete the required plot it will be necessary for the company to acquire title to Nos. 44 and 46 East 19th srteet, 40x92, now owned by John Sloane, a stockholder, and such a transfer has been provided for. The lessor is the owner of the two parcels adjoining on the west the Belvidere Hotel, on the 18th street corner. Each is 20x92, but to allow of the erection of the building as agreed upon it has been decided to use the rear 20 feet of the lots, thus reducing their dimensions to 20x72 each. The term of the lease is twenty-one years, with two renewals for similar periods. The aggregate value of site and building is said to be $1,500,000. The property, with the exception of Nos. 44 and 46 East 19th street and including the 18th street parcels, was bought in two sections in March and April, 1886, by the Adams Express Co. for a total of $350,000. It was again transferred in June, 1893, to Henry B. Barnes for $500,000, and conveyed by him during the same month to the Central Real Estate Association for a like consideration. On Tuesday last a transfer, also for $500,000, was recorded from the last mentioned grantee to the new Central Real Estate Association, recently incorporated for the purpose of carrying out the terms of the lease which at the time was under negotiation. The building is to be completed by October 1, 1896.

Siegel, Cooper & Co. have leased for a long term of years from the date of its completion, from Adler & Herrmann, the six-story brick stable, 50x88.6, to be erected by them at Nos. 214 and 216 West 17th street, and for which plans were filed during the week.

F. F. Proctor has leased from Francis J. Schnugg the vacant plot west of the latter's new theatre now nearing completion on 58th street, between 3d and Lexington avenues, for a term of years, and will erect thereon a music hall to be run in connection with the former building of which Mr. Proctor is the lessee.

CONCERNING REAL ESTATE BROKERS AND AGENTS.

A. W. McLaughlin & Co. have added more room to their office facilities in the old Mutual Life building, No. 146 Broadway, to accommodate their increased patronage.

De Selding Bros. of No. 59 Liberty street, New York, and 189 Montague street, Brooklyn, have been the recipients of many congratulations on the successful termination of negotiations whereby they leased the mammoth twelve story structure about to be erected on 4th avenue and 19th street, by the Central Real Estate Association, to the American Lithographic Co. The term is twenty-one years at about $75,000 per annum with two twenty-one year renewals. Few leading brokers but have tried during the past two years to secure quarters for the lithographing company and thereby earn a substantial commission, and De Selding Bros. success is an evidence of their ability as negotiators and of their perseverance, for their work on the lease just closed was commenced last September.

Financial.

The failure of the Cordage Protective Committee seems to be due to their starting out with the assumption that they could bulldoze the Waterbury Committee into giving the bonds something more than the property as it now stands calls for. What it was supposed they would do was to go way back of that and find out what became of the property and money that have been from time to time put into this enterprise, and from the result of their investigation seek to give value to their bonds. However, it will seemingly end only in making another example of the impossibility of getting security holders to expend a little money and time in their own interests.

The statement of operations on Northern Pacific for the year ending June 30th last, recently put out, has been used as an argument in favor of cutting down the road's obligations. Those who have employed this statement in this way have carefully refrained from pointing out that the year reported on covers the period of the strike and was, in fact, only about a three-quarter year. Now, while it may be wise to reorganize bankrupt properties on the basis of earnings, in years of business depression, it is certainly not necessary to do it within the limitation of strike earnings. Northern Pacific is now earning interest on its first three issues of bonds, and holders of these will be foolish if they do not make their own terms.

The approximate gross earnings of the Great Northern Railroad system to June 30th, 1895, show an increase of $2,065,476.88, and $362,684.04 increase for the month of June. This is a very gratifying showing and speaks well for its careful management.

Messrs. Vermylie and Messrs. Blake Bros. this city, were the successful bidders for $585,000 of City of Brooklyn, N. Y. 3½ per cent. bonds at 3.81 or on 3.32 per cent. basis. The city officials are much gratified over the result of the offer.

The Long Island Traction Company reorganization plan drags along and the stock has shown actual decline since its proposal. Perhaps the stock and bondholders have considered the proposition for trusteeing the control and conclude not to enter into any such plan.

The great conundrum on the street for the week has been what will be the outcome of the New York and New England foreclosure sale of this property at $5,000,000 with its stock selling up in the fiftees. Will it be made to assist in reorganizing the Reading or be leased to the New York Central. A few weeks may solve the problem.

Trade Notes.

Gillis & Geoghegan, manufacturers of hot-water and steam-heating apparatus, are once more domiciled in their former quarters at Nos. 537 and 539 West Broadway, which were partly destroyed by fire some time ago. The large and commodious buildings have been much improved upon, and the firm have availed themselves of everything in the line of new and improved machinery in order to facilitate the prompt and satisfactory completion of contracts. The high standing of this firm among the architectural and building fraternity for many years is sufficient guarantee for the proper performance of all work placed in their hands. They point with a degree of pride to the following list of names as amongst their patrons: John Jacob Astor, Nos. 8, 10 and 12 Wall street; William Astor, Broadway Prince and Crosby streets; Robert and Ogden Goelet, Whitehall, Stone and Bridge streets; Catharine L. Wolfe, Fulton and Gold streets; Rhinelander estate (R. H. Macy & Co.'s stores); Lorillard estate (six Broadway buildings); Hon. Orlando B. Potter, Beekman street and Park row; Hon. Eugene Kelly, Beckman and Nassau streets; Hon. Levi P. Morton, 5th avenue and 42d street; D. Appleton & Co., Grand and Greene streets; Arnold, Constable & Co., Broadway and 19th street; Phelps, Dodge & Co., No. 19 Cliff street; New York Life Insurance Co., 62d street and Park avenue; Columbia College, 49th street and Madison avenue; Trinity Church Corporation (St. Augustine's Chapel); St. Patrick's Cathedral, 5th avenue and 50th street, and hundreds of churches, convents and academies in all parts of the country; New York Stock Exchange, Broad and Wall streets; New York City Hall, City Hall Park; Hebrew Orphan Asylum, 10th avenue, 136th to 138th street; William H. Webb, 5th avenue and 42d street.

M. BRENDEL'S PATENT IMPROVED FIRE-PROOF METAL LATH.

The ever-increasing requirements of the building laws for better and safer construction in all kinds of buildings has led to the expenditure of much thought and time, besides large sums of money in experiments looking to the betterment of all kinds of building materials and devices. Among the latest improvements is M. Brendel's patent improved fire-proof metal lath, which is used for elevator, light, dumb-waiter and ventilating shafts, partitions, ceilings, furring and all interior fire-proof construction. It is highly spoken of by a number of architects and builders who have already used it in prominent buildings, and for partitions and shafts where strength is required without a sacrifice of space it promises to be extensively used. For estimates of cost and all particulars address Brendel & Co., No. 509 West 28th street.

The firm of T. P. Galligan & Son, contractors and house movers, whose offices are at No. 528 East 17th street, have, owing to the immense increase in their business, added largely to their former plant. In addition to the property formerly owned and occupied by them for offices and storage yards, they have at present in use a large five-story warehouse, lately purchased by them, so that they now occupy a street frontage of 200 feet, where they have all the latest and most modern conveniences for carrying on their very extensive business. They also occupy on the opposite side of the street a plot of eight lots, running through from 17th to 18th street, for storage purposes. The stables of the firm, which give shelter to fifty-four horses, are models of sanitary construction and comfort. The firm have performed successfully many of the largest contracts in excavating, shoring and house-moving ever done in this city, to which they refer with no small degree of pride. They are at present engaged, amongst other less important contracts, with the following: The new Astor hotel, 34th street and 5th avenue; the new hotel on the site of the old Wellington, at 42d street and Madison avenue; Johnson building, at the corner of Broad street and Exchange place, and the building being erected by John T. Williams at William street and Exchange place.

Attention of architects and the building trades is called to the Stewart Ceramic Company, manufacturers of solid white crockery wash-tubs and sinks. This firm lays claim to the fact that they manufacture ceramic goods, which compare favorably with those of foreign make and at a much lower price. That their goods can be found in many of the fine residences of the country is ample justification of their claim to the superior excellence of their wares. Indeed, nowadays the old-fashioned wooden wash-tubs have been almost entirely supplanted by those of white crockeryware, so that no first-class residence is considersd complete without them. In addition this firm, after many years of experiment and manufacture, have arrived at a point where they can furnish them at a cost which is anything but prohibitive. The firm claim for their goods that they are perfectly glazed, have smooth surfaces, cannot absorb, leak or decay, are very strong, require no labor to keep clean, have no seams to open, are not affected by heat and cold, have been on the market for upwards of fifteen years, and are warranted by them for thirty years. Architects, builders and house owners contemplating the purchase of wash-tubs, butlers' pantry, slop and kitchen sinks are invited to inspect their exhibit at their warerooms at No. 312 Pearl street, this city.

Richey, Brown & Donald, architectural iron workers, whose works are located at Paidge avenue and Setauket street, Brooklyn, have secured the contracts for ornamental iron and bronze work in the following buildings: Bar Association building, 43d and 44th streets, between 5th and 6th avenues, C. L. W. Eidlitz, architect; office building on the southeast corner of Liberty and Nassau streets, Lamb & Rich, architects; the large apartment house, corner of 75th street and Columbus avenue, same architects; Fidelity Insurance Company building, Philadelphia, F. S. Newman, architect; Public School No. 2, Brooklyn, and New York Post Office, for which they are furnishing elaborate elevator inclosures.

A BIG MECHANIC'S LIEN DISCHARGED BY FILING BOND.

Objections were made before Judge Bischoff on Tuesday to the acceptance of a bond of the Fidelity and Deposit Co. of Maryland, with offices here at No. 35 Wall street, for the discharge of a mechanic's lien against the Diamond Exchange, No. 14 Maiden lane, in the matter of John J. Radley & Co., the well-known iron-workers, against Boehm & Coon. After President Warfield and Managing Director Henry B. Platt were sworn and subjected to an examination as to the financial condition of the company, Judge Bischoff declared the bond approved and the lien discharged. Col. Wm. Jay recently reported, after a rigid investigation ordered by Judge Barrett, that the Fidelity and Deposit Co. is in excellent standing, and Comptroller Fitch, after investigation, decided to accept bonds of the Fidelity and Deposit Co. on contracts for municipal work. The capital of the company is $750,000, and the surplus July 1st, 1895, $587,767.

APPRECIATED BY ARCHITECTS AND BUILDERS.

Mr. Irving L. Van Etten, of No. 280 Broadway, whose card appears on another page is agent and dealer in architectural terra cotta and front brick, and the great success he has scored is evidence of his close attention to the wants of his customers and ability to fill all orders satisfactorily. Mr. Van Etten is thoroughly posted in all the requirements of the business, having been trained as a designer and draughtsman and identified with the building trades for years. He gives personal attention to modeling, fitting, etc., which leads to the ideas of the architect being successfully carried out. Mr. Van Etten makes a specialty of producing terra cotta and front brick to order from the same clay, thus insuring evenness of color. He handles several lines of front and ornamental pressed brick, many of which cannot be duplicated in quality elsewhere, and has now on hand a special line of fine cream buffs which he is supplying at low figures.

A Challenge to Nines.

The employees of McKim, Mead & White's office hereby challenge any nine from any architect's office or a picked nine from any three architects' offices to play a game of baseball in New York City or vicinity. The game to be played within three weeks of the acceptance of this challenge subject to future arrangement. It is expressly stipulated that only amateurs and bona fide members of the offices in question of at least two months' standing shall take part in the game. Address, F. J. Helmke, No. 160 Fifth avenue.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows. The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward properties will be found all together at foot of this list.

Notes Gathered Here and There.

BROOKLYN'S BUSINESS OUTLOOK.

Unfortunately business on this side of the river has not shown any marked improvement this year. There are no large operations underway to act as a stimulant to a general revival. Still the outlook is not as bad as it may appear to be at first glance. Representative business men do not take a gloomy view by any means. Only this week John G. Jenkins, President of the First National Bank, speaking on the subject said: "The general improvement in business is extending all over the country, and Brooklyn is no exception. If this is not as marked here as in New York City or in other cities, it is nevertheless a slow and safe movement for the better. This city depends almost entirely on the building trade, and when that is dull everything else follows suit. The builders are as yet somewhat timid and are waiting for a more pronounced change before embarking on any extensive enterprises. As for the over-supply of property for sale and to let, I am confident that we shall with our increasing population be able in a short time to catch up with it and give the building trade the impetus for which it is waiting. The great enterprise of the hour is the construction of the new bridge. I look to this improvement to work wonders in this part of the city, and incidentally to Brooklyn in general. The brokers will experience a period of activity when the Commission begins to purchase property for the terminal, the effects of which will be felt for some time by the market in general. And just as soon as active operations are commenced there will be a general and more marked improvement all along the line."

President Merritt, of the Long Island Trust Company, took a more conservative though not uncheerful view. "Although we have passed through the dangerous stage," said Mr. Merritt, "we are left like a convalescing patient—very weak and without ambition to embark on any new enterprise. The banks and deposit companies are fairly overflowing with unused capital, and the rates are lower than ever before, but there is little or no demand for money, and although the indications are good for the near future I would not hold out any glittering views for the business of this city."

William H. Hazard, president of the Fulton Bank, said: "The advance will, I am afraid, be retarded by the fact that the coming year is a Presidential election year. The great wealth of this nation, however, precludes all possibility of any lasting depression." Speaking of Brooklyn, he said, "Our great setback is that we live next door to a wealthy neighbor, and our constant efforts to keep up with his style keeps us in poverty."

Henry Batterman, the new East River Bridge Commissioner, merchant, and president of the Broadway Bank, expressed himself as greatly pleased with the prospects for the near future. He said that business in his part of the city was increasing surprisingly, considering the season of the year. From his contact with the prominent business men of the Eastern District, he could assert that the general feeling was one of confidence. He also was very enthusiastic on the new bridge.

PURCHASE VERSUS CONDEMNATION.

The investigation of the affairs of the bridge by the Assembly Committee has brought out some very startling facts which go to show how costly the process of condemnation of property for public purposes is to the taxpayers. Mr. Henry Beam, secretary to the Bridge Board, testified that some property on Washington street, owned by the Brooklyn Institute, with a frontage of 51.06 feet, was acquired by condemnation proceedings and cost $75,075.23. Property immediately adjoining it with a frontage of 27 feet was obtained at private sale for $30,000. The difference in acquiring these two pieces of property by condemnation proceedings or by private sale was $15,000. The Washington Street Church property, with a frontage of 104 feet, which was acquired by condemnation proceedings, cost $132,896.14, while the Stein property, a short distance apart, obtained by private sale, brought $200 a foot less. The value of the property acquired for the plaza was about $1,500,000. All this had been paid with the exception of one piece. This was the Lynch property, known as the Long Branch Hotel. There was still some litigation regarding that property. The price agreed to be paid for it was $160,000. The assessed valuation of it was only $60,000. The inquiry on this line is to be pushed further and very sensational results are expected.

Gossip—Brooklyn.

One of the largest and most important sales made recently in Bay Ridge has just been completed by Messrs. Cortelyou & Van Brunt which embraces the property extending from 3d avenue to Stewart avenue and between 72d and 74th streets, comprising in all about thirty acres, and a part of what was known as the Winant G. Bennett estate. Thomas Gillespie was the purchaser and the price paid $175,000.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

BUILDING MATERIAL MARKET.

NEW YORK.

The following companies have recently filed papers of incorporation with the Secretary of State, at Albany:

The Campbell Supply Company of New York City.—To purchase and sell plumbers' and steamfitters' supplies; capital, $8,000; and directors, Wm. Campbell, M. F. Campbell and John Buzzin, of New York City.

The Reversible Window Sash Manufacturing Company of Brooklyn.—Capital, $5,000; and directors, Louis Fink, Chas Miller, Jacob N. Herrle and others of Brooklyn.

The Clyde Glass Works.—To manufacture glass and glassware in Clyde; capital, $38,000; and directors, Chas. D. Ely, George H. Hoyt, Gaylord R. Bacon, James R. Miller, William W. Legg and George H. Hoyt, Jr., of Clyde, and Frank H. Warren, of Rochester.

The Standard Structural Company of New York City—To construct and erect buildings; capital, $25,000; and directors, P. M. Smith of New York City, and W. M. Daniell and Charles Tremaine, of Brooklyn.

The Lee Construction Company of New York City—To manufacture material for fire-proof floors, roofs and walls; capital, $200,000; and directors, Thomas A. Lee, James H. Lee, William H. Scanlon, Henry C. Bryan and T. Foster Gaines, of New York City.

The High Falls Pulp Company—To operate a pulp mill in Chateaugay, Franklin County; capital, $50,000; and directors, J. O. Smith and Chas. E. Martin, of Plattsburgh; T. C. Bort, John S. Van Vrechten and Adam S. Benedict, of Chateaugay.

The Foote and Thorne Glass Company of New York City—To manufacture window, sheet and plate glass in the United States and Canada; capital, $50,000; and directors, H. W. Foote, Arthur Thorne, F. S. Foote, of New York City, and Thomas W. Hislop, of Troy.

BRICKS.—It was difficult to extract any very great amount of information that appeared really crisp or interesting as compared with one week ago. Demand has been very good and on the increase if anything, but there was plenty of stock to meet it with just a bit of surplus at first hands, and a great many loads laying alongside wharf at various localities in harbor because of impediments that have arisen to prevent immediate discharge. The truth is that consumption, while gaining all the while, has not yet caught up to expectations of the trade, and it is discovered that some of the big foundations which had been looked upon to make a separate for a large number of bricks are being [illegible] of iron or steel and concrete. That [illegible] in conjunction with the large addition to production this season is what is keeping the price down to practically $5 for an extreme up to middle of July. A little above that figure may be [illegible] to start the range, but in excess of $5.12½ is certainly exceptional at the close. The quality down to [illegible] generally fine, but in view of the weather [illegible] this month there is almost certain to be a great many washed brick later on, and first-class stock at present cost may then look cheap, although there are many of them still to load and send forward. Pales are again

GOLD has come to the front again in a way that is likely to carry with it unpleasantnesses. Just now it is apparently a dispute between the merchants who have balances to settle on the other side and the bond syndicate as to who shall lose the trifling difference between the cost of shipping gold and the rate of exchange as fixed by the latter. The merchants are being told that their position is parsimonious and unpatriotic, but it is hard to see why they should make the sacrifice, if any is to be made. The mistaken idea has been made much too prevalent that the bond operation of last February was a quasi-philanthropic one, instead of being the entirely mercenary—though not mercenary in any harsh sense—one it was. The results to the syndicate cannot have been otherwise than satisfactory, the profits have been so very large that it can well afford to spend some of them in observing the obligations toward the business community that the privilege of undertaking the sale of the bonds carried with it. Moreover, owing to the foolishness of the Treasury Department the syndicate has been relieved of the most onerous of these obligations, the importation of gold, and it does not become it to be quarreling with shippers over trifling fractions on exchange, and it should abate somewhat its petty desire to get every cent it possibly can out of an unfortunate situation. The public will not forget that it would not be possible for gold to be going out now if the syndicate contract had been strictly enforced. If gold shipments continue they must affect the Treasury balance, and every one knows what that will mean. Of course, it pays better to mend some things that have gone to pieces than to keep them whole, and we are apt to forgive a cobbler for preferring the weather that is hardest on shoes, but is it a fact that we are all cobblers?

IN view of the return of a Conservative majority to the British Parliament, speculation now centers upon what the influence of the policy of the new government will be on business. At home it can do really nothing to change the face of affairs; happily for the country, its financial and commercial policy is too well fixed to be affected in any material way by the transfer of the reins of power from one party to the other. Abroad it may be different, though, as we pointed out before, it is not likely that Lord Salisbury will try to do more than keep England at peace, while pushing her commercial advantage in every direction, just as Mr. Gladstone and Lord Roseberry did. A different face may be put upon this policy, but behind the Tory mask the features will be the same as before. The emergencies of the moment may call for some greater show of vigor than it has been necessary for the Liberal government to make; one of these is likely to be created by the attitude of Russia toward Japan. The murder of M. Stambuloff creates considerable anxiety outside of Bulgaria. He had been out of power for some time without seeing the policy he inaugurated for his country changed to any appreciable extent, a fact that did not satisfy his enemies at home or abroad. The European business situation can still be summed up in an excess of money and a disinclination to use it except in gilt-edged investments. Vienna has had another flurry, in which money for a week's use was between 9 and 11 per cent. The financial journals see in the situation here the possibility of threatening conditions for the Treasury, and as a consequence purchases of American securities are very gingerly made.

THE nearer we approach the Presidential election, the narrower become the divergencies between parties. This is contrary to political optics, but that such is the case must be apparent to all. Indeed, if the process of approximation be carried much further, it will be difficult to see what the fight of the next campaign will be about. Clearly, the force of circumstances is fast driving Republicans and Democrats alike to occupy the same ground; or, if not that, it is eliminating from their disputes the solid "practical" substance about which alone the everyday man cares to bother himself. To explain: A few months ago there was at least a superficial possibility that the two great parties might drift to opposite poles on the silver question. Perhaps to-day both are not quite "in line" on the matter; but the opinion may safely be hazarded that the national conventions will put both on the same "sound money" plank. Of course "sound money" is an ambiguous phrase, but ambiguity is the language of politicians in dealing with real issues. Republican and Democrat, however, will each alike mean the same thing by the phrase—viz., the maintenance of a currency conforming in the main to the commercial requirements of the great trading nations of the world. Then, again, as to that perennial source of difference between the two parties—the tariff. Not long ago, with hard times pressing on everybody, profits nil, wages low, the outlook black, it would have been easy to give the old dispute an intensely practical and immediate interest that would have made the controversy a very earnest one. But, business is improving steadily, wages are advancing, the entire industrial machinery of the land is getting into motion again, and the commercial outlook is promising. Under these conditions, surely it will be difficult to make discussion about the value of this or that tariff more than an academic or theoretical dispute for the bulk of people. Experience, indeed, is forcing many to see that Protection and Free Trade (as so far carried out in the United States) are not matters to get rabid over; that the country somehow is greater than either, and if only given peace gets along fairly well under McKinley tariffs and under Wilson tariffs. Undoubtedly, this ancient dispute has moved somewhat out of and away from the shops and the counting-houses, and in the open air it is worth less than formerly as a red rag in "politics." For the rest, at present there are only minor affairs for party difference, and it would be a good thing for the country if for a period party lines in national politics were to become merely nominal boundaries, so that the emphasis of our political activity could be concentrated on local and State matters. Good government everywhere throughout the land has suffered enormously because in the minds of most people national politics have predominated. It is this condition that is mainly responsible for the wretched administration of our municipalities and for the farce which goes by the name of State government throughout the length and breadth of the land.

EVEN in France, where "le sport" is as alien in its derivation as the word that designates it, the triumph of the bicycle is complete and universal. The "mass" is getting onto wheels with unexpected results. The latest cry of resentment for the "craze" is raised, they say, by Parisian publishers and booksellers. Thousands who formerly had time for reading and cash to spare for the purchase of books, have lately diverted the one and the other to the wheel. We are curious to know whether like results have followed in this country from the absorption of the multitude in the new pursuit. The universal adoption of a new, democratic means of locomotion must, indeed, have effects beyond those registered in booksellers' receipts. We know, for instance, that it has affected the horse-market and, of course, concurrently all trades and vocations that depend upon equine locomotion. Moreover, we see that the bicycle is affecting the national idea of what constitutes a good road. The old notion is already undergoing radical revision. As the popularity of the wheel is undoubtedly only at its beginning, we may safely expect extreme changes in our county highways of mud and ruts which have hitherto been queer anomalies in a land where, in even less important matters, "improvements" are so readily sought after. In New Jersey, the good-road experiments have been so abundantly justified financially that it cannot be long before the entire State is grid-ironed with macadam. And here we touch real estate. Good roads have already greatly increased values, and their extension will bring a great deal of property into the market which the wheel in a way will make available for residences. In this manner the bicycle will tend to increase the radius of suburban towns. Hitherto it has been very hard to push the building limit beyond three-quarters of a mile from the local railroad station. Further than that people will not walk. If building operations are carried beyond that point the aid of the horse-car or trolley has been necessary, and these means of locomotion are not easily obtained by every little town. The bicycle, however, will greatly increase the ordinary individual's radius of action. With good roads he can

press with ease a long distance beyond the three-quarter mile limit and yet be within as easy reach of the depot. Building operations will go with him.

Park Avenue Property Owners' Grievance.

The Park Avenue Property Owners' Protective Association met on Tuesday evening last at No. 1997 3d avenue and adopted a constitution and by-laws. The plans of the Rapid Transit Commissioners call for two elevated structures on Park avenue, one on either side and immediately adjoining the long, hideous tank erected by the New York Central Railroad Company, from 106th street north to the Harlem River. The proposed viaducts will abut 18 inches on each sidewalk, and thus Park avenue, which is 140 feet wide, will be covered from sidewalk to sidewalk by huge, unsightly overhead railroads, supported at frequent intervals by seven heavy iron stilts. This work will shut out all light and air from the abutting houses. It is to prevent these plans being carried out if possible that the Park Avenue Protective Association has been formed. It has now 225 regularly enrolled members, each of whom is an owner of property in the portion of Park avenue affected by the plans. Another meeting will be held in about two weeks. Wm. A. Soles is the president and O. H. Pieck the secretary of the Association.

Protection of High Buildings from Fire.

In response to the request of the fire underwriters the Fire Department has made tests of the pressure at various places throughout the city, and at different times of the day, with some startling results. Fire Commissioner Sheffield stated that in certain parts of the city the pressure at noon was as low as five pounds. At Rector street and Broadway the pressure in the early morning was eighteen pounds, ten at noon and twenty-two in the evening. At Fulton and New Church streets the figures were 16, 9 and 22, and at Rivington and the Bowery 8, 6 and 13. He said further: "Although opening the 700 or 800 closed gates will increase the pressure somewhat the throwing of water into the upper floors of the higher buildings will remain a difficult problem. Even with strong pressure at the hydrants it is unusual to get a stream of water much above 110 feet. At least half, therefore, of many buildings of over ten stories recently erected are beyond the reach of water from our engines. Personally I would favor a law limiting the heights of buildings."

The Neglect of the Boulevard.

The shameful extent to which the neglect of the Boulevard is being carried by the city is evidenced by the fact that no less than two letters from residents of the West Side have appeared in the daily newspapers complaining of it. It goes without saying, that when two New Yorkers go to the labor and trouble of writing complaints to the newspapers, that the condition of this very important thoroughfare must be very bad indeed. One of these writers says truly: "The Boulevard should be a great pride to New Yorkers, but with the trees being ruined, the grass trodden out, and absolutely no care taken, it is a disgrace to the city, and above all, to those who should look to its care;" and the other wishes to know "Who is to blame for this neglect?" The blame can be shared by the Departments of Works and Parks.

Fences Around Vacant Lots.

Comptroller Fitch has directed the attention of the Police Department to the fact that fences around vacant lots are frequently torn down and carried away. He says further that the fences are often carried away before the assessments laid on the property-owners to pay for them have been confirmed.

A Complaint from East Fifty-seventh Street.

Owners of property in its vicinity have raised objections to a stable entrance that has been built at No. 130 East 57th street. It is claimed that this projects 5x17 over the street line. The work is being done by F. Muldoon for S. M. Odell, the owner of the Saratoga stables, on Lexington avenue, who, since the laying of the cable line on Lexington avenue, decided that it was necessary to have an entrance to the stable on East 57th street. Accordingly No. 130 was purchased, and under a permit for alterations to a dwelling, the stable entrance was constructed and carried out to the line of the bay window, which other property owners in the neighborhood claim is a violation of the law. The attention of the Superintendent of the Department of Buildings and of Mayor Strong has been called to the matter and other steps are to be taken to ventilate the grievance of the neighbors unless the new work is put back to the street line. The matter raises, of course, the much disputed question of the right to build out to the line of the bay in some circumstances.

Obituary.

Grenville A. Kissam, a real estate broker, with an office at No. 51 Liberty street, died suddenly on Monday afternoon of apoplexy on the "L" station at 8th avenue and 53d street. He was sixty-three years of age. The funeral services took place on Wednesday evening at his residence in West 83d street.

American Institute of Architects.

The New York Chapter of the American Institute of Architects have moved into their new quarters in the Presbyterian Building, 5th avenue and 20th street, and expect to have their offices in good shape in a week or two. A large library of standard architectural works and most of the American and foreign serials will be on file. Secretary A. J. Bloor has been sick but is now recovering and resuming his correspondence.

The Annexed District.

The acting Corporation Counsel has written a letter to the Comptroller on a number of points raised in connection with the lately annexed district. Among other things he advises that back taxes should be paid into the Comptroller's department through the bureau and in the manner required by law for the collection and receipt of taxes; the Williamsbridge sewer can be paid for from the amount available by sale of bonds issued for that work; for the present, until funds are available for the maintenance and repair of highways and roads, they must be paid for from the sums heretofore appropriated for the 23d and 24th Wards, unless in the amount of taxes the Comptroller may receive from the local officers of the annexed district there shall be sums which have been especially collected for road taxes; specific taxes should be applied to the specific purposes for which they are raised.

West Twenty-Third Street Ferry.

Mayor Strong has approved the resolution of the Board of Aldermen establishing a ferry at the foot of West 23d street to Grand street, Jersey City.

Building Department Inspectors.

James J. Callahan, Edmund T. Burke and John J. Hearn have been appointed inspectors in the Department of Buildings at salaries of $1,100 a year each.

Personals.

Albert E. Gibbs, of the firm of Ware & Gibbs, has returned from a three weeks' vacation pleasantly spent at Lake Ontario, N. Y.

John Davis has taken quarters with his family at the Howland House, Long Branch, but will come to the city once a week, or oftener, if necessary, during the remainder of the summer.

Henry Otis Chapman, of Barney & Chapman, has left with his family for his summer home at Deal Beach, N. J., where he will remain until late in the fall.

Julius Friend will leave for Saratoga Springs on Saturday next. A week later he will join his family at Sacandaga Park in the Adirondacks and return to New York by August 5th.

William M. Lawrence, of William Kennelly's office, divides his time between the city and Belmar, N. J.

Henry S. Herrman went abroad some weeks ago and is now traveling on the Continent. He expects to return about September 15th. Mr. Adler, his business associate, is occupying his cottage at Far Rockaway, L. I., but comes to town daily.

D. Phœnix Ingraham left a day or two ago for a ten days' outing in the Adirondacks.

E. A. Cruikshank will remain in the city with the exception of a day or two until the middle or latter part of next month. Consequently our statement of last week that Manager Benjamin Hardwick would be his guest for a week or more at the Saranac Club was not strictly correct.

John A. Van Rensselaer, of Van Rensselaer, Martin & Ramsey, will leave town to-day for Vermont, where he will sojourn at the Fort Cassin Club.

Financial.

Attention is drawn to the notice to the bondholders of the United States Cordage Company given by a number of well-known bankers headed by Messrs. J. P. Morgan & Co. These gentlemen recommend the deposit of securities with the Manhattan Trust Company under the plan of the Sturgis, Barbour and Waterbury Committee.

Messrs. Frank K. Sturgis, William Barbour and John I. Waterbury give notice in our columns to-day that at the request of a large number of the holders of the securities of the United States Cordage Company they have extended the time for the deposit of securities under their plan up to and including July 26th inst. Deposits of securities are to be made with the Manhattan Trust Company, this city, and include the first mortgage bonds, the guaranteed, preferred and common stocks of the Cordage Company.

Messrs. Spencer, Trask & Co., this city, have at last secured the award of the Atlantic City, N. J., bonds, bid for by them at a recent offering. This matter has been in the courts and we are informed the city has fully cleared the title that was in dispute.

CONCERNING REAL ESTATE BROKERS AND AGENTS.

The well-known firm of Koeppel & Brooker has been succeeded by W. E. Brooker, who continues the real estate and insurance business at the old stand, No. 778 East 177th street, corner of 3d avenue. Mortgage and builders' loans are a specialty with Mr. Brooker, and his lists of properties for sale are most complete.

Arthur R. Parsons and Edward N. Crosby are the brokers who negotiated the trade involving two recent sales of unusual importance—that of the Diamond Exchange, No. 14 Maiden lane, for Boehm & Coon to Alfred Duane Pell, and the dwelling No. 436 5th avenue for the latter to the former. The amount involved in the deal is said to have been about $575,000. Both parcels were transferred on Tuesday.

P. A. Geoghegan has been proposed for stock membership of the Real Estate Exchange by Clinton W. Sweet. The nomination has been seconded by Cornelius Daly.

Real Estate Market.

The brokers' sales reported closed in the past six days give ample evidence of the customary summer dullness. The transactions, of which we have obtained the details, show an aggregate investment of not more than $1,300,000, a sum largely due to the extensive West Side lot purchase made on behalf of F. M. Jencks and his associate investors and operators. The other sales by private contract announced during the week include none worthy of special comment, the parce'ls as a rule being of a very ordinary description.

The following are the comparative tables for New York Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1894 and 1895.

Unimportant foreclosure and partition sales have been the feature at the Broadway Salesroom this week, and, singular to relate, the daily attendance was remarkably large. On Tuesday, William Kennelly adjourned until the 30th inst. a foreclosure sale of No. 446 West 51st street, and D. P. Ingraham & Co. a similarly announced sale of the northeast corner of 7th avenue and 12th street until August 6th. A resale of No. 1330 Washington avenue, a parcel originally sold under foreclosure on May 9th, took place on the same day owing to a failure to complete his purchase by Thomas F. Joyce, to whom the property had been knocked down at the first sale for $6,000. It sold on Tuesday for $5,600. Smyth & Ryan disposed of on the same day three 23d Ward parcels under the direction of Police Commissioner A. D. Andrews, referee. The property was bought by the plaintiff at low figures notwithstanding that there were a number of outside bidders. On Wednesday announced foreclosure sales of No. 62 Bank street and No. 53 Columbus avenue did not take place, the respective judgments having been settled.

On Thursday Smyth & Ryan conducted an interesting sale of property on West End avenue, 100th and 142d streets, that was included in a recent assignment made by Builder Charles G. Judson. A second mortgage, held by Leopold Gusthal and covering the various parcels, was the one foreclosed. Among the many persons present there were not a few who at the close of the sale referred to it as the most decisive sacrifice of fairly good property that has been witnessed in many a day. One of the West End avenue houses and three lots on West 142d street were knocked down to Lewis S. Samuel, who gave N. S. Hart as the name of the purchaser. One other sale, that of a vacant plot on East 88th street, took place on the same day, the auctioneer being William Kennelly. By a singular chance both sales were under the direction of the same referee, Frank L. Donohue. Yesterday's adjournments were Noo. 59 West 68th street, by William Kennelly, until August 1st; No. 1881 to 1887 1st avenue, northwest corner of 97th street, by the same auctioneer, without date, and Nos. 1314 to 1320 Avenue A, northeast corner of 70th street, by Richard V. Harnett & Co., until August 2d.

William Kennelly will sell at auction, in partition, at the Salesroom, No. 111 Broadway, on Tuesday next, the 23d inst., a number of valuable investment properties, located on \ g and resum- 32d street and East 117th street; also some out ing and Melville, Suffolk County, Long Island. M nations will be found in our advertising pages, placed can be had of the auctioneer at his office, No. 1 d in th New York property is advantageously located in the a the Comp- facilities, and in districts where property is always in demand for residence and business purposes. The offering of these parcels, considering their character and the limited amount of property that comes under the hammer at this season, should make it quite an event and draw a good number of buyers.

Philip A Smyth, auctioneer, of Smyth & Ryan, will sell at auction, on Saturday next, the 27th inst., at 2.30 P. M., and on the premises, 190 seaside lots at Edgemere, between Arverne and Wave Crest. The neighborhood in which these lots are located has become a favorite and select seaside residential resort. A hotel was put up there last winter which is said to be the finest on the Atlantic coast, and there has been a good demand for land for residences. This property is rigidly restricted to private dwellings on suitable plots. Improvements of all kinds are being rapidly introduced; the views are magnificent, the communications with New York and Brooklyn many and varied and the recreative facilities excellent. Should the weather be unfavorable next Saturday the sale will be held on the wide veranda of the new hotel. Maps and terms, etc., can be obtained of Smyth & Ryan, No. 111 Broadway.

WANTED.—A thoroughly competent salesman in a leading real estate office. Address, X. Y. Z., Office of this paper.

Gossip of the Week.

SOUTH OF 59TH STREET.

Hoffman Bros. have sold for the Wallace estate the old three and four-story buildings with plot about 91.4x100, Nos. 38 to 44 Laight street, to W. H. Russell, of the firm of Clinton & Russell, at a figure under $90,000. A new seven-story building to be erected by the purchaser has been leased by the same firm, acting conjointly with D. H. Carroll, for ten years, to a tenant who, it is said, will pay a gross rental of $125,000.

Mandelbaum & Lewine have sold to Denison P. Chesebro, for improvement, the plot 100x103.1, with two three-story brick tenements and one-story building, Nos. 419 to 425 West 13th street, and will take in exchange the three and four-story tenements, No. 328 Madison street, southwest corner of, and No. 27 Scammel street, lot 25x89x25.1x90.5, and the three three-story stone front dwellings, on plot 45x102.2, Nos. 328 to 332 East 81st street. The latter property changed hands in April last for a consideration of $27,500.

Brooke & Georger have sold for Franklin L. Gunther the four-story stone front business building (formerly a dwelling), on lot 20x98.9, No. 21 West 30th street. The seller bought the property a short time ago for $60,000, and is understood to have disposed of it at a substantial profit.

The same brokers have also sold for Bessie Lapaix the adjoining dwelling, No. 23 West 30th street, a four-story stone front house with lot of the same size, at a figure not a great deal under $65,000 to the same investor.

John Davis has sold for Pauline Goldsmith the four-story brick tenement, on lot 25x92, No. 427 East 19th street, to Pincus Lowenfeld, for about $12,500.

Albert Sichel has purchased the three-story brick building, with lot 22x98.9, No. 213 East 22d street. It adjoins his recent extensive purchase, running through to 23d street.

E. H. Ludlow & Co. have sold for Mitchell A. C. Levy the three-story stone-front dwelling, lot 19x98.9, No. 137 East 38th street, to C. Gallagher.

William P. Jones has sold No. 306 West 26th street, a three-story brick dwelling, 18x50x98.9, for George W. Lamereux to Henry Siefke.

Kuhn, Loeb & Co. have been instrumental in securing from the Equitable Life Assurance Society a loan of $1,200,000 for W. Wheeler Smith on his property No. 84 Broadway, adjoining the southeast corner of Wall street. It runs through to New street and includes the southwest corner of that street and Wall, on which its numbers are 3 to 7. The rate agreed upon is said to be 4½ per cent. The plot will be improved, as elsewhere stated in this issue.

An authorization to sell obtained during the week from the Supreme Court by St. Luke's Hospital recited the correct prices agreed upon in the sales of lots on West 54th and 55th streets that have been reported from time to time. The plot of four lots on 54th street and three on 55th street, which were sold a short time ago, will realize $395,000. Banker James Stillman is the buyer. The William R. Montgomery syndicate will acquire four lots on 55th street for $153,000 and two on 54th street for $120,000. William Murray will pay $123,000 for the 50 feet frontage adjoining the latter, while Dr. Thomas R. Satterthwaite and Samuel Kirtland will secure 55th street lots at $37,000 and $36,000 respectively. The total amount that will be realized for the property sold up to date is $864,000.

NORTH OF 59TH STREET.

The executors of the will of the late Mrs. Anna Ottendorfer have sold to Frank L. Smith, as representative of the Francis M. Jencks syndicate, several large vacant plots, containing in all 153 lots, lying between 134th and 137th streets, the Boulevard and 12th avenue or Hudson River. The purchase includes the following parcels west of the Boulevard: two lots on the north side of 134th street, the block front on the south side of 135th street, the entire block between 135th and 136th streets, and that between 136th and 137th

Sanders, except a plot 175x100 and 125, fronting on the Boulevard; also an irregular plot having a frontage of 110 feet on the east side of the Boulevard, between 135th and 136th streets. The price agreed upon is very close to $650,000.

Stabler & Smith have sold for the Mercantile Building Co. the five-story American basement dwelling, 32x27x41, No. 270 West 93d street, one door east of West End avenue, to Rev. Isaac Van Winkle.

M. Bargebuhr & Son have sold for E. F. Thatcher the five-story brick flat, 25x88x100.11, No. 56 East 104th street, to Mrs. E. Lotze for $27,000.

Solomon D. Cohen has sold to Theodore F. Sanders, for immediate improvement, a plot, 40.11x100, on the west side of Madison avenue, 60 feet north of 116th street.

Gustav Deisler has sold the three-story brick dwelling, on lot 15x99.11, No. 602 West 147th street, for $13,500 to Charles R. Cornell, who will give in exchange the five-story flat, 26.10x78x110, No. 395 St. Nicholas avenue.

J. Bierhoff has sold for Mrs. Fannie Scheideberg the five-story brick flat, on lot about 25.11x90, on the northwest corner of Park avenue and 118th street, at $45,000, to Mrs. Emma Krug, who will give in exchange a residence and grounds at Summit, N. J., accepted at a valuation of $18,000.

Bernard & Co. have sold for Mrs. Sarah Darragh to a Mrs. Henry, the five-story brick double flat, No. 307 West 119th street, lot 25x100.11.

The Wm. S. Anderson Co. have sold the three-story stone front dwelling, 19x55x102.2, No. 172 East 70th street, for John L. Macauley to Mary King at $18,000, and for William L. Dowling and another, the four-story brick double tenement, lot 26x74, No 2366 1st avenue, between 121st and 122d streets, to E. Cohn, and the adjoining tenement, 26x74x irregular, to F. H. Drickmann.

Slawson & Hobbs have sold for Dr. John H. Barry his four-story brick residence, lot 21x60 x ext. x 100.5, No. 115 West 69th street, for $38,000.

The four-story brick tenement with stores, on lot 25x95, No. 2186 1st avenue, between 113th and 114th streets, has been sold by Mrs. Anna Gill to A. Sharboro for $13,500.

Bryan L. Kennelly has sold for Thomas McGee a lot, 25x100.11, on the north side of 112th street, 100 feet east of the Boulevard, to Frank L. Smith for $7,500.

Eugene Schwab & Co. have sold for E. J. Moloughney the five story brick flat with store, on lot 25x100, No. 843 Amsterdam avenue, north of 101st street, for about $35,000.

A. E. & E. A. Karelsen have sold or traded for Samuel Green a plot, 75x99.11, on the north side of 139th street, about 450 feet east of Lenox avenue. The seller acquired the lots in May, 1892, for a consideration of $8,550.

De Selding Bros. and J. P. Stoecker have negotiated a trade between Alexander Bros. and Simon Haberman, by the terms of which the former agree to exchange at a valuation of $18,000 a plot, 50x100, on the southwest corner of Convent avenue and 133d street, for the three-story dwelling on lot 18x100.11, No. 254 West 121st street, valued at $21,000.

M. H. Myers has sold for Bernhard Mainzer, No. 69 West 133d street, on lot 25x99.11, one of three five-story brick flats recently acquired in a trade for a house in West 132d street.

Builder John Casey pronounces false the reports published yesterday of a sale of the new flat, 50x100.8, on the northwest corner of Columbus avenue and 84th street. He says there is a "dicker" under way, but no sale has yet been arranged.

The trustees of the City College, at a meeting on Thursday, approved the selection of the committee appointed for the purpose of choosing the site described in a recent issue and lying between 138th and 140th streets, St. Nicholas and Amsterdam avenues. The land comprises 127 full lots.

LEASES.

Daniel Birdsall & Co. have leased for the Orlando B. Potter estate the second, third, fourth and fifth lofts of Nos. 806 and 808 Broadway, and of the six-story addition to be erected at Nos. 104 and 106 4th avenue, which adjoins the rear of the Broadway building. The completed structure will be 50x230. The term of the lease, is five years, at an aggregate rental of $80,000.

NORTH SIDE.

M. Bargebuhr & Son have sold for H. B. De Graff a lot on the south side of Teasdale place, about 430 feet east of 3d avenue, to a Mr. Jonas.

Case & Farley have sold for Sophia L. Henry a plot 51x100 on the southeast corner of Home and Simpson streets to William D. Madden for $3,500.

Barnett & Co. have sold a plot, 80x about 100 and 56 rear, on Sedgwick avenue, 100 feet north of Boston avenue, for $7,000.

WESTCHESTER COUNTY.

Mrs. Wesley Bush, recently sold her one-sixth interest in the property owned by what is known as the James Gordon Bennett Syndicate, near Dunwoodie, on the line of the Northern Railroad, to James M. Truman, of Binghampton, N. Y., for $250,000. Mr. Truman has since resold a portion of his interest to J. J. Gleason, who is believed to be acting in the interest of one of the bidders for the Jerome Park reservoir contract, who wants the land for use in connection with that work.

Trade Notes.

The elevator world has been much impressed by the news that Messrs. John Hammond & Co., who for ten years were the representatives of the Otis Co. on the Pacific coast, and who have probably installed more elevators than all other concerns combined in that section, are among the latest converts to the superiorities of the Sprague-Pratt elevator. They have become the agents of the Sprague Company on the Pacific coast, and will now push the elevators of that company in preference to all others. This is only one of the many indications of the superiority of the Sprague elevator. The shops of the company at Watsessing, N. J., are now running a day and a night force to fill orders. It has even become necessary to largely forego the usual Saturday half-holiday and encroach upon Sundays. The Company have recently received and installed a great deal of new and elaborate special machinery designed for their elevators. The success of this ingeniously-devised elevator has been scored in all parts of the country. For instance, among the notable buildings equipped with from one to fifteen elevators are the following: Postal Telegraph Company's Building, New York City; Merchants' National Bank, Baltimore, Md; Johns Hopkins University, Baltimore, Md; Edison Electric Illuminating Company's Station, New York City; residence of John Jacob Astor, New York City; residence of Mrs. Wm. Astor, New York City; Ahrens Building, New York City; Gerkin Building, New York City; Boston *Globe* Building, Boston, Mass. (throwing out Whittier steam plant); New York Custom House, New York City; Parrott Building, San Francisco (fifteen elevators); City Hall and Court House, Minneapolis, Minn. (four to twelve elevators, against thirteen lower competitive bids); Guaranty Building, Buffalo, N. Y. (four elevators); No. 126 Liberty street, New York City (throwing out Otis plant); No. 167 Tremont street, Boston, Mass.; Morgan House, 40th street and 5th avenue, New York City; Central Palace, New York City (throwing out Marsh plant); Edgemere Hotel, Long Island; Hotel Walton, Philadelphia (three elevators); Board of Trade, Chicago, Ill. (four elevators, throwing out Crane hydraulics); Union Trust Building, Detroit, Mich. (five elevators); Currier Bank Building, Los Angeles, Cal.; Syndicate Office Building, Liberty and Nassau streets, New York City (five elevators, fifteen stories, may increase to twenty-two stories); Safe Deposit Building, San Francisco, Cal.; projected office building, New York City (fifteen stories, five elevators); projected office building, New York City (ten stories, four elevators); Academy of Music, San Francisco, Cal.; apartment house, 75th street and Columbus avenue, New York City (ten stories, three elevators).

Ronald Taylor, the well-known maker of pavements of granolithic, asphalt, artificial stone and other materials, has moved his offices to larger and more central quarters at No. 156 5th avenue, room 1119, Presbyterian Building. At present he is very busy with many large contracts and working night and day. Among the buildings on which he has recently had large jobs are the following: Arnold, Constable Building, 19th street and 5th avenue; Gerkin Building, corner Chambers street and College place, roof, floors, corridors and sidewalks; Lexington avenue, power house, 25th and 26th streets, heavy concrete floors; Johnson Building, Exchange place and Broad street, sidewalks; Atlantic Garden, Bowery, sidewalks; 212 to 218 Wooster street, floors, basement and sidewalks; New York Building, Broadway and Waverly place, sidewalks. It will be remembered that Mr. Taylor has done the heaviest concrete work ever performed in the fire-proofing which he put in throughout the Postal Telegraph Co.'s Building. It was an innovation in a fire-proof building, but it proved so eminently satisfactory to the architects and owners that it induced the owners of the Gerkin Building to adopt a similar system of fire-proofing in their new building.

KOSMOCRETE.

The Wilson & Baillie Manufacturing Company, Nos. 85 to 93 9th street, Brooklyn, has completed contracts for "Kosmocrete" floors and sidewalks as follows: Armory at Utica, N. Y., 10,000 square feet of sidewalks; Twenty-third Regiment Armory, Brooklyn, 50,000 square feet of floors and sidewalk; New York and Brooklyn Bridge (both New York and Brooklyn entrances), 17,000 square feet of sidewalk. These facts show the established popularity of Kosmocrete. We are informed also that the Columbian Fire-Proofing Co., of Pittsburgh, Pa., whose Eastern agent is Philip B. Cavanagh, Decker Building, No. 33 Union square, have appointed this Company as their constructors for the Metropolitan district. It is claimed for this construction that it is the strongest, cheapest, sightliest and more thoroughly fire-proof than any other system.

FRAMER AND BUILDER.

Fredrik O. Johannesen, of No. 2275 Southern Boulevard, corner of Home street, is one of the successful young men in his line. He has executed contracts for framing for a number of the leading builders and always does satisfactory work. He is now building three double and one single flat on the north side of 84th street, between Amsterdam avenue and the Boulevard, after plans by Architect John De Hart.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

REVIEW AND RECORD.

BROOKLYN, JULY 20, 1895.

The Speed of Trolley Cars.

THE FOLLOWING PETITION REGARDING THE RECENT REGULATION OF THE SPEED OF TROLLEY CARS CALLS FOR THE ATTENTION OF ALL PARTIES INTERESTED IN THE MATTER:

BROOKLYN, July 9, 1895.

To the Honorable the Common Council of the City of Brooklyn:

GENTLEMEN—We venture to address you upon a matter now pending before your honorable body relating to the regulation of speed upon the trolley cars of this city. We feel a particular interest in the proper disposition of this subject, for the reason that the matter of rapid transit is intimately connected with the business of real estate. We are engaged in the buying, selling and renting of property, and activity and prosperity in that occupation are only possible in a constantly growing and expanding community.

This, we are pleased to say, had been particularly characteristic of Brooklyn prior to the panic year of 1894, and the returning signs of business prosperity now visible throughout the country undoubtedly mean a speedy renewal of activity in our business in this city. We are desirous that this revival should be substantial and lasting, but we fear that the great advantage which we in common with the other citizens of Brooklyn enjoyed by the establishment of more rapid transit on the surface railroads by the introduction of electricity, will be nullified unless the recent ordinance adopted by your honorable body be modified so as to permit the trolley cars to go faster than they are allowed to go at present.

Brooklyn is so much a city of cheap homes, and because of its attractiveness in this respect has been built up so rapidly, at the expense of upper New York, that it will not be disputed in our opinion that any policy which tends to discourage this tendency is one which would be generally condemned by the public. In the competition between New York and the cities and localities surrounding New York, Brooklyn has many natural advantages which it ought not to lose by a shortsighted and illiberal policy. The annexed district in New York, Staten Island, Long Island City and New Jersey are all inviting population to those places by the establishment of cable and trolley surface roads, and they will flourish at the expense of Brooklyn if we are compelled to go back permanently to horse car speed.

Now that the trolley roads in Brooklyn are under a new management which seems inclined to do all that is possible to secure safe transit we petition your honorable body to modify the speed ordinance so that Brooklyn's growth may keep up its former pace, and that our city may be on equal terms of competition with other localities in the immediate vicinity of New York.

Respectfully submitted,

Notes Gathered Here and There.

THE WALLABOUT IMPROVEMENT.

One of the most important improvements, both in magnitude and cost, which the city has undertaken recently will be commenced shortly in the Wallabout section. It is proposed, in order that the Wallabout Market should have all the facilities possible for the transportation of wares from various parts of the State, direct to the dealers, to lay out and improve the city land known as the purchase of June 3, 1894. This land lies directly opposite the Washington avenue side of the market, with the Wallabout Channel running through it. It is proposed to dredge this channel for a distance of about 1,000 feet. The entire west side is to be bulkheaded, while a temporary bulkhead is to be constructed on the south side. On the east side of the channel there will be three large piers in addition to the two old ones, and in order to facilitate traffic to this part of the market Clinton avenue will be cut through and extended out on to the west bulkhead. The Commissioner of City Works proposes to commence operations on a moderate scale, with provisions for any extensions or additions that may be deemed necessary in the future. The cost of the improvements he intends to undertake at once is estimated at about $500,000. With the improvements under way and those projected the city will have one of the best markets in the country.

RELIEF OF THE JOHNSTON AVENUE SEWER.

Commissioner White has made application to the Common Council for an appropriation for the construction of a sewer to drain Morgan avenue. It is to extend through Morgan avenue to Johnston, where it will empty into the large sewer there. The petition also asks for an appropriation for the construction of an overflow to the Johnston avenue sewer. This sewer drains a large part of the 15th, 16th, 17th and 18th Wards, and is one of the main drains of the Eastern District. But, notwithstanding its great size,

it is totally inadequate in stormy weather. During a storm, cellars in the entire district it drains are flooded. The proposed new sewer is to act as a relief to the large sewer by carrying off the storm water only. It will commence at the intersection of Johnston and Morgan avenues, extending through Morgan avenue, and will discharge at the head of the Newtown canal into a basin 60x80 feet. The cost of the work is about $135,000. The Morgan avenue sewer will cost about $50,000. The Commissioner is also preparing to sewer that part of the city known as Bushwick.

CORRECTION.

In our statement of coming judicial sales for July 11th, appearing in our issue of the 6th inst., by an error of arrangement the sale of No. 820 Jamaica avenue, No. 988 Jefferson avenue, Crescent avenue, corner Atlantic avenue, No. 207 Rockaway avenue and Cleveland avenue, west side, 45 south Ridgewood, were not credited to T. A. Kerrigan as they should have been.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

BUILDING MATERIAL MARKET.

NEW YORK.

BRICKS.—There certainly has been no improvement in general character of the market during the week, and some operators, with interest all on the side of higher rates, frankly admit they consider conditions somewhat worse. Some lines of custom, insisting upon having certain favorite makes of stock, may possibly still have to pay $5.12½, but $5 is, to all intents and purposes, the general top rate for open market deals, and there is plenty of good quality to be had at still lower cost. It is difficult to say whether it is a case of too small demand or too many bricks, as arguments are made from both standpoints, but it is very certain that no scarcity of supplies has at any time been known, and a great many manufacturers are grumbling and scolding because barges have been laying here at the piers of buyers for two and even three weeks without an opportunity to discharge. Meanwhile stocks at manufacturing points are accumulating for want of shipping facilities, and will be sent forward as soon as possible, so that altogether it does not look as though there would be any scarcity of brick unless consumers take them up a great deal faster than they have been doing. Quality at present continues good, but there is bound to be some washed stock later on. Pale, in straight cargo lots, might find custom, but buyers will not bother with small odd parcels.

DOORS, SASH AND BLINDS.—Conditions commence to look much better and there is a steady increase in the demand. Local operators no longer grumble over the indifference of buyers, but on the contrary assume quite a cheerful tone over the volume of trade they already have in hand, with excellent prospects for further expansion, and we are informed that some of the manufacturers in this State are commencing to refuse orders. The natural influence upon values is of a hardening character, and firmness now appears to prevail all along the line, with no cutting of list figures or allowance of special discounts. As yet no formal revision of local lists is announced, but the matter is under consideration and an advance cannot long be delayed, especially on glazed sash, which are directly influenced by the increased cost of glass. The situation at the West is reviewed by *Northwestern Lumberman* as follows:

The sash, door and blind business has rounded out the first half of the year in pretty fair shape. There has been a substantial increase in prices since the first of the year, and the volume of business has been reasonably satisfactory, though not quite up to normal. Latterly there has been a falling off in demand all over the country, but no more than is usual at this season. July promises to be a month of limited demand, except in some of the larger cities, where local building operations are being actively carried on. Prospects are generally favorable for a good fall trade, however. No one expects any great increase in the requirement until after the first of August, but if the crops turn out as it is now anticipated they will, there should be a fairly active demand when the harvests are over.

So far as has been learned none of the factories have as yet closed down for the usual midsummer repairs. Considerable stock is likely to be piled during the present month, but there is no expectation that any unwieldy surplus will be created thereby.

GLASS.—In general, trading in window glass is not particularly active at the moment. The direct call from consumers is in the main limited to parcels wanted for some immediate necessity and covering routine selection. But present conditions do not appear to worry holders one particle, as business since the first of month has been simply of seasonable character, and there is every indication of a most excellent Fall trade, which many operators contend will fully balance, if it does not exceed the supply available, especially of first quality. The stocks in hands of manufacturers and jobbers are small and it is contended that holders practically have the situation in their own hands until the Fall fires are started. One estimate places the amount held by manufacturers west of Pittsburgh at only 380,000 boxes, nearly all of which is controlled by the Western combination recently formed. Some consideration must

be given imported stock, and it meets with good favor so far as it goes, but there seems to be an idea that it is not to be counted as a formidable competitor, and instead of interfering with domestic to any extent is likely to be benefited by the general strength prevailing. For the eleven months of the fiscal year ending June 1, the importation in round numbers showed a decrease of 135,000 boxes, as compared with corresponding period in 1894. There has been no change announced as yet on the French list, but our local dealers, confident in their position, have made an advance on American and now quote at 75 and 5 per cent on car lots, and 75 per cent discount on smaller parcels. Although it is as yet too early to commence borrowing trouble over the labor question, there is a notion that there may be some difficulty with workmen before the fires can be started in the Fall. The following despatch was received from Pittsburgh during the week: "The National Convention of the Window-Glass Workers of America put up the bars against foreign glass-blowers by adopting a resolution increasing the initiation fee from $5.00 to $50.00. It is further provided that the applicant for membership must have been a resident of this country for five years prior to his application; that during that time he shall not have worked in any glass house, and that he shall be a naturalized citizen of the United States."

And the following has also been published: "The United States Glass Manufacturers' Association held its semi-annual meeting at the Manhattan Beach Hotel. W. H. Herroy, of New York, presided, and W. H. Hadley acted as secretary. The meeting was held behind closed doors. There were present delegates from all the big glass factories throughout the country. During the afternoon the tariff on glass and the various prices of the different firms were discussed, and the scale of wages for employes for the next six months was fixed."

In plate glass the movement is moderately active, with some tendency toward an increase, and as stocks in hand are small, under perfect control and well managed, the market has an exceedingly firm tone.

Reviewing the situation editorially a local trade paper has the following:

There is a growing tendency towards a union of interests among the window glass manufacturers, both East and West, the Indiana concerns having already completed an organization. The attempts of Eastern people to combine, however, have met with failure whenever tried, the claim being made that there was no necessity for the large manufacturers to prop up the smaller concerns without any reciprocal benefits. With the shutting down of all the factories, both here and at the West, for the Summer season, the market is now wholly in jobbers' hands, and they have not been slow to take advantage of the situation. With no glass to be manufactured for the next two months, the amount now on hand is not considered sufficient for the requirements of business up to the end of that time, besides which assortments of desirable sizes are already scarce. The demand of late has reflected the improved condition of industrial enterprise and the greater activity in the building trades. Glass has been selling at ruinously low prices, and few of the manufacturers close the year with the balance on the right side of their ledgers.

Before the next fire developments of an interesting order are also expected from the glass-workers. Wages were reduced during the hard times, and a readjustment is now called for, especially as in other trades advances have been secured. The workers desire a return to the old schedule, which would equal an increase of 15 per cent. over the present scale. As the time approaches, it becomes more evident that their wishes will have to be acceded to. Supplies will then be practically exhausted, and the manufacturers cannot afford to let an opportunity for obtaining good prices slip away. The position, no matter which way it is studied, is a strong one. French glass is not competing to as large an extent as might be expected, and the situation resolved into its elements merely indicates a short supply and a good demand. Higher prices must therefore follow, and so far as the most conservative operators can forecast, an advance will take place.

LATH.—Matters commence to look somewhat better, and receivers are plucking up renewed courage. During the period since our last it has been demonstrated that previous reports of moderate amounts coming along were correct; but, better still, a demand was found for the offering, and higher rates were paid, until at the close we find the quotation made at $1.75@$1.80 and considerable firmness shown. It is understood that many dealers who were thought to be well stocked have of late been asking questions that would appear to indicate preparations for coming upon the market.

LIME.—The market is quoted right up to former figures in some cases and called firm, but—well, it does not seem to be exactly in that position. Arrivals have been moderate, and it is probably fair to say they have not been urged to sale; but, at the same time, there was no particularly hungry demand looking for the stock. Dealers had been previously well supplied with cheaper goods, and with no immediate necessity for obtaining additions, were unwilling to negotiate. Those who did come into the market are generally understood to have been served at 85c. for common and 95c. for finishing, with some discount off for cash, which is a trifle under the "regular" quotation.

LUMBER.—Reports are somewhat variable in character and depend upon whether arguments are based upon present conditions or future prospects. For the time being it cannot be said that there is much natural direct demand and when business is accomplished it is in the main the result of special solicitation on part of sellers, a condition explained in our last as in a great measure due to quieting influences common at this time of the year. But on the other hand there are very few of the trade who look for current state of affairs to prevail for any great length of time, and as winter approaches a good full measure of animation is calculated upon. Even if actual consumption does not run up into any very liberal volume there is a large amount of stock to be accumulated by dealers and manufacturers for natural working assortment, with nothing to check them in way of low prices and plenty to stimulate them in the way of healthy feeling steadily gaining confidence in commercial and financial affairs and the improvement taking place in all staple commodities.

White Pine remains about steady with more or less offering from both the West and Canada, but as a rule operators do not appear to have much that is really new to suggest in regard to the market. A considerable amount of faith is expressed in high grade stock, as in one way or another consumers are showing an inclination to handle a little more of it, if not too costly, and, as the supply is small, sellers have a natural advantage likely to be retained without difficulty. Of boxing, however, the offerings are quite equal to any present demand, and buyers as a rule appear to think there will be plenty of stuff available right along, and those who order for later delivery claim to do so more as a matter of convenience than through a belief that it is really necessary. Some export demand prevails and more is hoped for, but shippers as a rule appear to feel they are well provided with stock against all calls likely to arise.

Yellow Pine gets fair attention, a little more of it possibly in the way of special orders, either against some particular line of work or for yard assortment, and commands former rates, with slightly increased firmness shown here and there. A number of mills are understood to have accumulated enough work to keep them running for a considerable time, and that curtails competition, but does not remove it. Indeed, there is still a great deal of complaint over the continuation of the practice among manufacturers of dealing directly with consumers, and until that is abandoned there is little chance for getting the market into shape. Neither is it likely that the wood will work into consumers' hands half as fast as might be the case if dealers were offered some inducement to push it and protected in their efforts to do so. The best development at the moment is a liberal increase in the export trade, mostly executed on f. o. b. orders for shipment at Southern ports, and pretty much all the stuff taken for the River Platte. We know of at least ten cargoes taken during the week, and including one steam, to carry the phenomenal load of two million feet.

Carolina Pine, between a very fair average local demand and more or less out-of-town trade, does quite as well as could be expected at this season of the year. Sellers are prepared to meet the call with ordinary promptness as there is no scarcity of stock at primal points and former rates are accepted with possibly some allowances granted under special conditions, although in a general way the market is called steady.

Hemlock is not generally reported active, but some operators appear to be rallying up a very fair sort of trade and commanding full former rates with little or no difficulty. Desirable stock is scarce and cannot, it is said, be readily replenished by the mills, and as soon as the first impact of returning fall trade is felt a further advance in price is expected on all grades suited to this market.

Spruce generally appears to be strengthening in tone again. Receivers of Eastern cut express a belief that the market has passed through its most severe test in the heavy receipts of last month, and that henceforth arrivals will come along only in such quantities as can be handled with ease. The reports at hand indicate that the quantity of random at primal points awaiting shipment is small, and with some of the best mills shut down it is becoming quite a difficult matter to place specials even though buyers may be willing to submit to quite full rates. Northern spruce continues scarce, especially in way of assortments suited to this market. West Virginia spruce is not offered on open market, but can be reached when called for, and a great many buyers are finding it exceedingly convenient to handle against small special wants.

Hardwoods remain in much the former condition. Offerings are not quite so plentiful at the moment, as some of the floating salesmen have gone to other markets to try their luck, but there is enough for all current wants, and it is likely a larger quantity would appear should demand assume more promising shape. Poplar continues to show considerable irregularity, and there are at times somewhat flat contradictions in matter of valuation. It is, however, becoming pretty generally understood that low figures represent poor quality lumber, either held stock or cut from old logs, while nice, bright, fresh product is comparatively scarce and offered only at about old rates, say $31 and upward. Quartered oak is firm, and well-seasoned stuff getting rather scarce. Other lines of domestic woods are without noteworthy feature at the moment, but for mahogany there is said to be a little more demand from out of town.

GENERAL LUMBER NOTES.

STATE.

The Albany *Argus* as follows:

Prices in pine have changed very little, but trade so far this month has been fair; quite an improvement on June. Each day there seems to be more inquiry for clear pine and the better grades all through.

In spruce the demand is equal to the supply and there is still a shortage of stock on the yards. Prices have a tendency to harden but there are no marked changes.

On Saturday last, the canal boat E. H. Cook brought down the canal to Arnold & Co. 216,624 feet pine lumber, and the boat John Mulholland brought to the same firm 208,025 feet pine lumber, two of the largest loads ever received in the Lumber district, and equal to a train of forty-five freight cars.

THE WEST.

The *Northwestern Lumberman* as follows:

Reports from the leading markets are to the effect that a degree of summer quietude has settled down on trade at large. Yet the subsidence of movement is not pronounced, and there are evidences that the condition of business in the majority of markets is one of more activity than at a corresponding time last year. In respect to the outlook for the late summer and the fall trade, it is much better than last year. There seems to be a unanimous belief that the fall demand is to be large, and this gives much strength to manufacturers and holders of stocks at initial points.

In the White Pine field of manufacture, stretching from Michigan to Minnesota, there is manifest a determination to hold stocks firmly during the quiet period of summer, for it is believed that prospects warrant such an attitude. It must be confessed that just now buyers of blocks of lumber are not very numerous, there still being evident a torpid condition of the market in this respect. The wholesale trade has not yet reached the point of full assurance as to the extent of fall business or the probable trend of prices. In this market dealers are buying about what they need to keep their trade supplied, but are not stocking up with reference to demand far in advance. On Lake Erie there seems to be rather more confidence than in this market, though buyers from easterly points are not usually active at Lake Superior mills.

At Manistee there is less unsold lumber on dock than at a like time last year, and the bill stuff market there sustains the record of activity and strength which has characterized it all season.

In Saginaw valley dullness has settled on both the cargo and car load trades, and the prospect is that there will be a quiet summer from Bay City to Saginaw. The white pine trade as a whole is waiting for the fall revival, yet there is a fair movement in a distributive way. The prospects of demand west of the Mississippi are brighter than for years, and some premonitions of the rising tide of demand have been experienced at river points. At Dubuque trade is becoming very good, and at Minneapolis, though there was a decline of shipment after July 1st, it was considered only seasonable, while the promise of a heavy fall trade still cheers the holders of lumber. Good stocks are firm all over the country, the only doubt pertaining to coarse lumber.

In respect to the hardwoods generally, all over the country, there is a gradually enlarging demand on account of the increase in manufacture of various kinds in which the hardwoods are employed. This observation is particularly true of oak. Stocks of dry oak are low, and a search for supplies, either north or south of the Ohio river, does not disclose any great surplus. Unless there should be an unexpected accumulation within a month or two the rising of the fall demand will be likely to induce increased strength in values.

At Chicago, receipts during the week have been moderate, and cargoes arriving have been sold without much delay. The demand for piece stuff is said by the commission men to be improving. The price of short lengths is maintained at $9 a thousand, even that from Manistee and Ludington, which has no particular richness in it, going at that figure. Prices of green and dry do not greatly differ at the present time. The large tows from Lake Superior are mostly disposed of before arrival.

There is a fair sale of inch lumber, but not a great amount is being shipped to market. It seems to be the purpose of the mill operators to withhold shipments until a strong market condition shall have been developed. In the meantime lumber is piling up at the mills, especially at Green Bay and Lake Superior points. Much of the piece stuff arriving is from Ashland and Duluth.

The Mississippi Valley *Lumberman* says:

The good showing of the first six months of the year as compared with the corresponding time for the year previous and the almost absolute surety that the balance of the year will show a still further increase has created a better feeling among the manufacturers than has existed for some time, and the fact that they are getting better prices for their lumber and the prospects for a still further raise is going a long way toward making up for the low stage of the trade during the past two years. There are some who think that there should have been a raise of $1 per thousand instead of 50 cents, and they say the trade in the fall will fully warrant the view they take. It is not at all unlikely that there will be a further raise before the heavy fall trade is through with.

It is a somewhat singular fact that Canada exports several million dollars' worth more of lumber yearly to the United States than to Great Britain, says an exchange. Thus, in 1893 Canada's total export of forest products to Great Britain figured $11,105,482, while to the United States that aggregate showed $14 741 455 worth. Yet with this enormous export of lumber to Great Britain and the United States, the value of Canada's forest products is about $80,000,000 per annum, leaving a balance for local consumption of about $55,000,000, nearly 70 per cent. of its forests products, and equaling more than $11 per head of population. It is somewhat surprising to note that Canada uses twice as much lumber at home as she ships abroad.

METALS.—In general the business in metals continues good and prices well sustained. The American Iron and Steel Association has received from the manufacturers complete statistics of the production of all kinds of pig iron in the United States in the first half of 1895; also complete statistics of the stocks of pig iron which were on hand and for sale at the close of the half year.

The total production of pig iron in the United States in the first half of 1895 was 4,087,558 gross tons, against 2,717,983 tons in the first half of 1894, and 3,939,405 tons in the second half of 1894. Large as was the gain of 1,389,575 tons in the first half of 1895 over the first half of 1894, the gain over the second half was only 148,153 tons. In the twelve months from June 30, 1894, to June 30, 1895, we made 8,026,963 tons of pig iron. In the last six months of 1895 we shall probably make about 3,000,000 tons, which will bring our total production for 1895 up to 9,000,000 tons. Our maximum production was in 1890, when we made 9,202,703 tons. Our next largest production was in 1892, when we made 9,150,000 tons. In 1893 our production fell to 7,124,502 tons, and in 1894 it fell to 6,657,386 tons.

The production of Bessemer pig iron in the first half of 1895 was 2,402,023 gross tons, or over 58 per cent of the total production.

The number of furnaces which were in blast on June 30, 1894, was 108. On December 31, 1894, the number in blast had increased to 185. On June 30, 1895, the number in blast was 186, while 311 were out of blast.

The Association's statistics of unsold stocks of pig iron on June 30, 1895, are exceedingly favorable for the producers. The stocks of pig iron which were unsold in the hands of manufacturers

GLOWING crop reports, assisted in some cases by other special developments, have given an impulse to speculation in the granger stocks. So active has this been that it almost conceals the weakness in Chicago Gas and the Industrials. When the market is carefully examined it will be found that a great deal of discrimination is shown in the buying, indicating that the crowd that clamors for stocks without any consideration whatever of merits has not yet arrived in Wall street. It may be taken, then, that the advance, so far as it has gone, is justified by the outlook. The crops are partly assured, and the chances favor a successful harvesting of the rest, rather than any injury to it. When the crops have arrived at this period of the year, as a rule it is only frost that can injure them, and as frost does not come early enough to do that once in a decade, the country is justified in looking forward to great results as the outcome of the agricultural operations of the year. The splendid showing for corn is especially fortunate. A good corn crop carries with it, not only the ability to export great quantities of valuable human food, but it also means the raising of larger stocks of cattle and hogs to be converted into money hereafter. If this year finally fulfils its promises of larger crops and better prices for grain, as there is every reason now to believe it will, the position of the farmer will be better than it has been for some years, and the probable benefit to be felt by general business from this changed condition of the agriculturalist is inestimable. While the crop outlook is the great favorable feature of the situation, the condition of the exchange market is the unfavorable one, and until there is a break in the rates it cannot be considered as wholly satisfactory, particularly for stock market operations. The time is nearly at hand, however, when this will be decided, meantime the public opinion of those who should know is that there is no danger whatever to be feared from that quarter.

GOLD production in the Witwatersrand district continues its progressive course. The output for June was the largest monthly output (valued roughly at $4,000,000) known to the history of this district. For the half-year it was $22,200,000 against $18,800,000, an increase of $3,400,000. If the proportion of increase continues unabated for the rest of the year the total production for this region will be from $48,000,000 to $50,000,000, an amount that the whole of the United States has never yet produced in any one year. For two years we have been writing about the glut of money, and there is positively no sign of an immediate cure of this evil, if evil it be. All the great banks stay gorged with the unremunerative balances of their depositors. It is not that capitalists want to keep their money in this condition of idleness, but they will not take any risks. Purchases of securities are readily made if they offer security, no matter how small the returns. This is proved by the substantial advance in English railroad dividend shares, while the rate of return has been almost generally and necessarily reduced, because of the falling off in earnings for the first half of the year. Nothing could better illustrate the lessened value of money than this reversal of the usual movement of quotations, and nothing better than the occurrences of the times could prove that we have attained a new scale of interest rates which will remain in force until a similar period of capital redundance brings about a still lower basis of return. These changes of interest rates always date from panics. They are the legitimate outcome of the fright and consequent timidity of the capitalists, who, under one impulse, bring their money into enormous piles at certain centres to let it go begging, so that the borrower who can satisfy the lender in the matter of collateral can exact his own terms. While this state of things lasts the growth of business is slow, a fact not at all to be deplored, except by the reporter, who is thereby permitted very little variety to his periodical reports and comments.

For a Revision of the Laws Relating to Buildings.

AT a meeting of the Board of Examiners in the Building Department on Tuesday of last week a preamble and resolution were offered to the effect that, as there is a desire on the part of architects, builders, real estate owners and others that the laws relating to buildings, including the subject of light and ventilation and plumbing and drainage, should be revised and amended, that each member of the Board of Examiners be requested to invite the Society, Organization or Department which he represents to each appoint a committee of three persons to meet conjointly together, commencing with the evening of the first Wednesday in October, to prepare a bill or bills to be presented to the next Legislature revising the present laws relating to buildings, and to take action in all other matters relating to the building interests. The resolution extended the invitation to several Societies not represented in the Board of Examiners, and the Superintendent of Buildings was especially invited to co-operate in the work of the revision, and to submit to the Revision Committee such amendments to the laws as he deems should be made thereto; and also an invitation was extended to the Attorney to the Department of Buildings to act as advisory counsel to the Revision Committee. At the request of the Superintendent, the resolution was laid over one week to give him time to consider the matter. At the meeting on Tuesday of this week he refused to allow the resolutions to be acted upon or made part of the record on the ground that it was not a subject that should emanate from the Board, but should come, if at all, from him. In some shape action will be taken before long, and to include the following associations:

The New York Chapter of the American Institute of Architects, the Board of Fire Underwriters, the Mechanics' and Traders' Exchange, the Society of Architectural Iron Manufacturers, the Real Estate Owners' and Builders' Association, the Real Estate Exchange, the Fire Department, the Architectural League, the Building Trades' Club, the Mason Builders' Association and the Employers' and Builders' League.

Between the two meetings of the Board of Examiners the Superintendent of Buildings gave to the daily press a notice requesting all architects, builders, real estate owners, societies and associations interested in the subject of a revision of the building laws to correspond with him and make suggestions, but leaving to him to decide what alterations and additions to the law shall be embodied in a legislative bill. The propriety of an action of this kind, under all the circumstances of the case, has been questioned and therefor may prove futile. The Superintendent of Buildings, it is said, is an administrative officer; not a law maker any more than any other private citizen, and his province is to carry out the laws that the people enact.

If a general desire for a revision of the laws really does exist, such desire must have arisen during the past few months. Architects and builders were fairly well satisfied with the laws as they were and were not agitating for revision. The recent unprecedented delays in passing plans and the discovery by architects that after many weeks of waiting from the time of filing their plans a series of new questions had to be answered—questions not included in the printed blanks and unnecessary in fact to ask, as the usual affirmative answer to the general question whether the law will be complied with in every particular is sufficient—the effect of requiring such additional information being to occasion more weeks of delay before obtaining permits has exasperated many persons and probably created a feeling that the laws need remodeling. Unquestionably the building law can be bettered in many particulars, as the result of the past three or four years experience with it. It is conceded that the light and ventilation and plumbing laws and regulations need a thorough overhauling, and then there is the new Tenement House Act, which greatly needs to be put in practical shape. The work of revision should be undertaken by representatives from the several important Building Trades' Societies to insure the work being well and properly done. Past experience has shown that the new laws should be so worded that their execution shall be in accordance with the intent of the law makers. The present building laws are thickly sprinkled with requirements that are not exactly dead letter provisions, for all parts are actively operative, but many are particularly intended to be useful in themselves as guides to safe building, and as warnings, or as reserved power for infrequent contingencies. Many of these small requirements are not contained in any building law of any other city in the world, and have not been deemed of sufficient importance to be added to the building laws of other cities. A rigid

and narrow interpretation of all portions of our law was never intended, and the full enforcement of every small detail contained therein in building work is impractical any way. Some of the provisions are of great consequence in safe building, and need to be rigidly enforced. Some are so trivial that their violation does no great harm. Probably there is scarcely a single building erected in entire conformity with law, not one in which a half dozen or more small infractions of the law cannot be found if searched for. It is said that the Superintendent of Buildings has a corps of special inspectors paid from the contingent fund at the disposal of the Mayor, doing secret work in going over the buildings now in course of erection, to discover violations of law on the part of builders and owners, and to prove neglect of duty on the part of district inspectors, so that any one or all of the latter can be discharged for cause and make room for inspectors of a different political faith. It is a fact that architects, even the most experienced ones, cannot, or do not, draw up plans and specifications that in every particular conform exactly to the building law, and yet no reputable architect or builder wilfully disregards any portion of any law. The laws are plain enough, but there are so many small requirements that it is no wonder some are overlooked. Seldom are any of the important requirements violated; it is the small details overlooked that bring in their train the annoyances of notices of violation. To inflict oppression and hardship because some minor requirements have not been literally complied with is not the intent of the law. The building law was passed for the purpose of securing safe building, the Act itself declaring it "to be a remedial statute, and to be construed liberally to secure the beneficial interests and purposes thereof," and when that purpose is fulfilled the law is enforced, whether every technical provision of it is complied with or not. All this being so, it will be well in making a revision to modify or strike out entirely many of the unimportant provisions. Once more there is likely to be an opportunity to express clearly and broadly all that is absolutely requisite for safety and health, leaving little chance for narrow and strange interpretations to be placed on any sentence in the laws, and to provide as far as possible against the enforcement of any portion of the several laws relating to building in an arbitrary, harsh and technical manner.

LAST week we indicated some of the directions in which the bicycle will exert an influence upon suburban real estate. Our remarks have stimulated several of our readers to remind us that the good effects of this new means of locomotion need not be confined to country lots. New York City real estate may be benefited, too, if the city authorities will construct suitable streets for bicycling. In towns the general use of the bicycle is at present restricted to parks and boulevards, where vehicular traffic is light. The machine, consequently, is employed only for pleasure and does not really take its place (as it should) as a means for general locomotion. Yet its possibilities in this direction are very great, and unquestionably it would be used by tens of thousands in this city for business purposes, instead of cable or trolley or elevated road, if only some thoroughfare suitable for bicycling were constructed from the Battery to Harlem. The proposition to build such a thoroughfare is now being very widely advocated and we believe the L. A. W. is pushing the plans. It should obtain the support of real estate men. Bicycle roads would be of especial value in the 23d and 24th Wards, and could be provided there cheaply and easily to-day, while the street system in those districts has not yet been entirely preempted to other uses. Moreover, it has been suggested that for the Battery-Harlem road the elevated structure be employed. This surely is feasible. A double-deck arrangement for trains along existing lines has often been under consideration in rapid transit discussion and a very light structure topping the present railway would furnish an excellent thoroughfare for bicycles from which no doubt the Manhattan Company could obtain a profitable return at a charge of perhaps three cents for each passenger.

SOMEHOW, "reform" always has a hard time in New York. The most ardent reformer must be puzzled to know exactly what to do when he allows the popular voice to enter into his counsels. It isn't very long ago that the people of this city were as unanimous as probably any multitude ever was in denouncing Tammany because the officials in power belonging to that organization did not make the laws prevail as the laws were written. "We have good enough statutes," it was said, "if only they were thoroughly and efficiently administered." This was the keynote of the last municipal campaign. If ever any community went in for law and order and the administration of the city's affairs in a direct, business-like manner, ours did at the last election; and, unquestionably, too, that election put into office a larger number of men of decent antecedents than any other election for years; and these men were, speaking generally, anxious in a larger measure than usual to act straight and not play the humbug with what, after all, are very serious matters. Under the new administration there have been, no doubt, defects and failures and of course much that may be criticised, but only the very blind and the very bigoted will deny that as the result of the last election government in New York city to-day is a cleaner thing and a thing of more reality than it has been for many years. Decent citizens can hold up their heads a little, conscious that the government of their city is not in its entirety a hopeless farce or degrading opera bouffe. And yet to what a queer pass have we come that the very officials who to-day are most intent upon enforcing the laws as they are written are the very ones that are most beset by hostile and blatant criticism. The wisdom of certain laws, the possibility of efficiently carrying them out, have nothing to do with the case. The point is, officials put into office to administer to the utmost of their power the laws, good or bad, such as they are, are assailed for doing their duty. It takes two to make reform, and by far the larger and more important part of the job belongs to the public. The present silly inconsequential method of procedure which we are complaining of, not only tends to make "law and order" and "reform" empty phrases, but discredits public opinion itself, robs it of all virility, and degrades it from the dignity of real speech to the level of the whimpering of a spoilt child. If popular will is to be estimated at this value we must rank ourselves at once with Nordau's "Degenerates," as a community of hysterics, lacking mental and moral fixity of purpose necessary to real self-government.

FORECLOSURE.

To the Editor of THE RECORD AND GUIDE:

(1) Property sold under foreclosure with notice by the referee previous to sale that the title would be delivered at his office in thirty days after the day of sale. The mortgagee or his trustees purchase, and deed delivered before the expiration of the thirty days. Is the mortgagee or are the trustees entitled to the rental of the premises before the thirty days announced by the referee for the delivery of the deed expire? (2) To whom does personal property in the house, such as gas fixtures, machinery, fuel, etc., belong, the fixtures being in the premises when mortgaged, but not referred to in any way at the time? Kindly answer in your next issue and oblige.

Answer.—(1) The purchaser of the premises is entitled to the rent from the time the title is vested in him. But if the tenant under agreement theretofore made has paid the rent in advance he cannot be compelled to repay the advanced rent. (2) The question of fixtures is one of the most intricate in law. Anything which is affixed to the freehold so as to become part thereof is covered by the mortgage, although not specifically mentioned. Gas fixtures and fuel are not fixtures.—LAW EDITOR.

ENCROACHMENT.

To the Editor of THE RECORD AND GUIDE:

A bought a house a year ago subject to a mortgage, being told that it was the only encumbrance by a reputable law firm who searched the title. In the meantime A is informed of an encroachment of their property of 5 inches on their neighbors' lots; the neighbors have proven the fact. What can A do, and who can be held responsible? Kindly answer in your next issue.

Answer.—What A should have done, or, in other words, what the reputable law firm should have advised, was that he have survey made before he took his deed to see that there was no encroachment. The lawyers, however, are not responsible for the fact that A encroaches or is encroached upon; and A can do nothing except settle if he encroaches, or claim damages if he is encroached upon. The question is so framed that we cannot tell who it is that encroaches. Furthermore, the question does not disclose whether the property is built upon or how long matters have been in their present condition. More particulars would be desirable if a definite answer is requested. —LAW EDITOR.

MECHANIC'S LIEN.

To the Editor of THE RECORD AND GUIDE:

Will you kindly advise me what course I can take under the following circumstances: A contracted with me to repair certain buildings for $54, and he employed B to furnish material and labor. The work was not done according to contract, and payment withheld. B files a lien against the property for amount of contract ($540) with A. Then A assigns his claim for $54 to B and B threatens suit.

Answer.—If suit is brought, your course is to defend and plead what you have stated in your query for your defense. If you desire to have the lien vacated, you can deposit money in the County Clerk's office to the amount of the lien to await the result of any suit which may be brought, or you can give bond.—LAW EDITOR.

MORTGAGE—FORECLOSURE.

To the Editor of THE RECORD AND GUIDE:

Will you kindly answer the following in your next issue?

A mortgages a piece of property for $1,600 at 6 per cent. interest for three years, and pays part of the three years' interest. The mortgagee does not foreclose the mortgage at the expiration of the time, but carries it on and receives no interest. A dies without a will and a dispute arises among the heirs, and no title can be had except by foreclosure proceedings. Is there any law to compel the mortgagee to foreclose and sell the property in order that the sheriff can give a title? One of the heirs desiring to bid it in.

Answer.—There is no law to compel a mortgagee to foreclose his mortgage.—LAW EDITOR.

ARCHITECT—CONTRACT.

To the Editor of THE RECORD AND GUIDE:

I have noticed in the columns of your paper you have given legal decisions, and I will consider it a great favor if you can give me a reply to the following. A certain party spoke to me about building a cottage some two years ago, and I submitted sketches of two floor plans, no exteriors, with which they expressed themselves much pleased. I heard nothing about it until two months ago, when I was informed they had started to break ground for the building, and the other day I went through the building as it stands, with the frame work and sheathing all up and about ready for the first coat of plaster, and find it practically the same plan as I submitted to them. Now, am I legally, under the laws of New Jersey, entitled to compensation for the sketches submitted? If so, how do you go to work to collect it, as sending in a bill is useless?

Answer.—We think you are entitled to compensation for your services, and if, upon endeavoring to collect, your debtor refuses to pay, your only course is to sue.—LAW EDITOR.

LANDLORD AND TENANT.

To the Editor of THE RECORD AND GUIDE:

A tenant has a lease which has still two years to run; does not pay his rent and landlord begins dispossess proceedings; tenant has five-days' time, but does not pay; the marshal starts to dispossess him with warrant signed by judge; tenant therefore makes a payment on his rent. Does lease still hold good? Kindly answer in your next issue.

Answer.—If the landlord accepted the rent we think that such acceptance reinstated the tenant in all his rights.—LAW EDITOR.

To the Editor of THE RECORD AND GUIDE:

Will you kindly inform me in your next issue if the Department of Parks have the right or power to grant or permit the erection of bay or oriel windows, and the distance they may project the same over the street line on the side streets opposite the park, in opposition to the city ordinances as amended and published in the issue of THE REAL ESTATE RECORD June 1st, 1895. Can the erection of the same be prevented by the adjoining property owners? SUBSCRIBER.

Answer.—The Park Commissioners have jurisdiction over the streets within 350 feet of a park line to grant projections beyond the street line for bay windows and other projections for ornamental purposes. Such power is exercised under legislative authority. The erection of a bay window cannot be prevented by adjoining property owners if the Park Commissioners persmit it.

The New Bridge.

The East River Bridge Commission has adopted "The New East River Bridge" as the official name of the bridge they are charged with building. Offices in the Emigrants' Industrial Savings Bank building have been taken for permanent quarters. The commission is now considering the matter of the appointment of a chief engineer. The following gentlemen prominent in the engineering world have been invited to confer with them: Prof. W. H. Burr, E. L. Corthell, Charles E. Emery, A. P. Boller, Virgil G. Bogue, J. F. O'Rorke, Gen. E. W. Ferrell and Gen. Geo. S. Field.

Against High Buildings.

Chief Bonner, of the Fire Department, has recently repeated to the daily press what he stated in THE RECORD AND GUIDE a year ago in reference to the inability of the Department to cope with fires in the upper stories of the high buildings. He is a steady advocate of the legal limitation of the heights of buildings. He said recently: "We have a hard fight on our hands in this movement to limit the heights of buildings. We shall probably win in the end, as people cannot help seeing the necessity of such a law, as it has been seen all over the west, and if a terrible fire should come in one of these buildings they will see it suddenly."

Obituary.

David Frank, for many years a familiar figure in the real estate world, in which he operated chiefly as a buyer of vacant land, and its seller with building loans for improvement, died on Monday, at Long Branch, of pneumonia. He was sixty-seven years of age and came to this country from his birthplace in Germany in 1852. The deceased made a fortune in the live stock business, from which he retired in 1883. The funeral services were held at his summer home on Wednesday morning.

Jeremiah B. Johnson, eldest son of Jere. Johnson, Jr., died suddenly on Sunday morning at his residence in Brooklyn. The deceased, unlike his father and brother, has always been far from robust, but, possessed of indomuitable energy, he became many years ago and continued to be up to the day of his death one of the most valuable business assistants in the senior Johnson's office in this city. The funeral services took place on Tuesday evening.

The Elm Street Improvement.

Work on the damage maps for the Elm street widening is to be pushed with the intention of having them ready for next fall if possible. For this purpose the Corporation Counsel has authorized the enlargement of the force of surveyors, searchers and draughtsmen employed on the maps.

The City Prison.

The Grand Jury for the July term in handing in its presentment yesterday said in relation to the suggestion that the city prison should be improved: "The removal of the courts from the Tombs building offers an opportunity for the enlargement of the prison without disturbing its inmates. It makes available at once a plot of ground having an area of some 15,000 square feet, equivalent to six city lots. In the judgment of the architects of the Department of Charities and Correction, who have been consulted by the jury, a building of sufficient height erected here would furnish the needed accommodation. If further room were required, the present prison could be rebuilt so as to give the additional space wanted. The jury agree with the architects in the conclusion that any attempt to alter the old court building and enlarge it would be a useless expenditure of money. The only way is to tear it down and erect a modern fireproof building on the site.

BUILDING NEWS.

R placed before the items below stands for Report, and is prefixed with the number of the report before news which has not appeared in these columns.

**R—the asterisk indicates that previous information concerning the building operation it prefaces has already been published in these columns.*

Mulligan, No. 425 East 53d street, limestone; Hay Foundry Co., No. 45 Broadway, iron; Chace Granite Co., No. 66 Broadway, granite; Perth Amboy Terra Cotta Co., No. 289 4th avenue, terra cotta.

*R. 690.—Southeast corner University place and Clinton place, seven-story brick and stone warehouse. W. H. Arnott & Co., No. 393 Canal street, have the mason's contract.

*R. 77.—Broadway, No. 30, fifteen-story office building. Sooysmith & Co., No. 15 Broad street, have the contract for the foundations.

*R. 221.—Wall street, Nos. 63 and 65, brick and stone office building. The following are the contractors: Geo. Brown & Co., Newark, N. J., limestone and granite; White Brick and Terra Cotta Co., No. 92 Liberty street, terra cotta; Gillis & Geoghegan, No. 186 Wooster street, steam heating; John Toumey & Son, No. 132 East 42d street, plumbing.

*R. 1050.—John street, southwest corner of Pearl street, New York Metal Exchange. A special meeting of the members will be held on August 6th to consider the advisability of purchasing No. 230 Pearl street in connection with the plans for erecting a new Exchange.

DWELLINGS.

R. 1078.—Riverside Drive, northeast corner of 76th street, plot 50x100 feet. Clarence True, No. 102 West 81st street, has plans for three five-story private dwellings. The work will call for tiled mansard roofs, hardwood trim, exposed plumbing, bath and laundry fixtures, hot-air heating, electric wiring, etc.

R. 1112.—Intervale avenue, 150x100, 90 feet south of 167th street, seven three-story frame dwellings, to cost $5,500 each. Thomas L. Gillingham, owner; John De Hart, Fox street, near Westchester avenue, architect.

RELIGIOUS.

R. 930.—Amsterdam avenue, northwest corner of 99th street, 89x100. St. Michael's P. E. Church, owner; Rev. Dr. Peters, rector. F. C. Merry, No. 13 Astor place, is drawing plans for a three-story and basement parish house. Specifications will call for a front of limestone, buff brick and terra cotta, slate and tin roof, structural and ornamental iron, fire-proof staircase, electric lighting and bells, steam heat, open plumbing and hardwood trim. The style of architecture will harmonize with that of the church. A rectory will be built as soon as the money is on hand for that purpose.

RECREATIVE.

*R. 959.—Fifty-eighth street, south side, 230 feet west of 3d avenue. Proctor's Pleasure Garden; J. B. McElfatrick & Son, No. 1402 Broadway, architects. John Snaith, No. 121 East 23d street, has the contract for everything excepting plumbing and sidewalks.

ALTERATION.

R. 1100.—Broadway, Nos. 1141 and 1143, Geo. Benjamin, No. 49 Lafayette place, lessee; Brunner & Tryon, No. 36 Union square, architects. Plan calls for new store front, patent lights, remodeled interior, painted and decorated and fitted up for clothing store.

MUNICIPAL WORK.

*R. 773.—The Aqueduct Commissioners have awarded the contract for lining the Jerome Park reservoir to John B. McDonald, the second lowest bidder, at $5,472,080. John O'Brien, who bid $5,297,370, or $174,710 less, entered an objection through counsel. The Commission is not obliged to accept the lowest bid, and in view of the discretion given to them by law and the long consideration they have given to the bids since they were first opened, it is not probable that the award will be changed. John O'Brien has begun legal proceedings to compel the acceptance of his bid.

METROPOLITAN DISTRICT AROUND NEW YORK.

BROOKLYN.

The Hall of Records is to receive a complete overhauling in a few weeks. The walls and ceilings are to be newly painted, the sash, doors and blinds are to be repaired where found necessary and the building generally put into shape for transacting a larger business. The cost of the repairs will reach about $10,000.

R. 1109.—William Thompson, of No. 189 Montague street, will erect from plans drawn by E. & C. M. Rowley, five three-story frame flats on the south side of De Kalb avenue, 300 feet east of Knickerbocker avenue. They are to contain all the improvements, and will cost about $30,000.

R. 1108.—John L. Young is preparing plans for the erection of ten two-story buff brick and Indiana limestone two-family dwellings on 47th street, for James Burke, of No. 189 Montague street. When completed they will cost about $45,000.

R. 1111.—The Commissioners of Charities and Correction have decided that the County Hospital for chronic diseases in Flatbush is not fit for occupation, and cannot accommodate nearly all that apply for admission. They have therefore applied to the Board of Supervisors to issue $250,000 bonds for the erection of a new building which will come up to the requirements. The Commissioners have recommended a site on Crown street, opposite the Penitentiary. J. Lauritzen, of New York City, has been selected to draw the plans.

They call for a new iron and glass front, extensive interior alterations and decorations, new gallery, boxes, tiling, electric lighting, etc.

Real Estate Market.

This week's summary of reported transactions indicates a more extended buying movement than existed last week. The sales have not only been more numerous, but they cover a greater variety of property. The total investment will amount to about $1,500,000, including considerations quoted in several trades. West Side flats of more than average value have been freely sold, as likewise have residences of the better class. Vacant land cuts an insignificant figure in the week's business. That the summer trading will fulfill the expectations of the army of brokers who still remain in town looks to be somewhat doubtful at the present writing, but as their ranks are made up of many whose confidence in their ability to pull off a good thing or two in the immediate future has not diminished it may be that a stronger market will develop before long.

The following are the comparative tables for New York Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1894 and 1895.

Only one auction sale attracted a crowd of good dimensions to the Broadway Salesroom this week. It took place on Tuesday and embraced a number of parcels offered in partition of the Michael Sherry estate by William Kennelly. Very nearly every confirmed speculator, as well as many investors on the lookout for summer bargains, were present when the sale began. To their surprise, the two most favorably located of the old houses realized high prices, No. 109 West 32d street being knocked down at $22,500, and No. 113 West at $16,000. Both were bought by Adolph Altman, who gave H. D. Rosendorf as the name of his principal, and was said to represent the owner of the Standard Theatre property, which the rear of each parcel adjoins on the southerly line. In the event of there existing a necessity for an extension of the office accommodations of the Standard building the lots will come in handy. The remainder of the property brought about its full value.

On Monday No. 85 Division street was withdrawn from foreclosure sale by D. P. Ingraham & Co. On the following day the adjournments beyond next week were a lot on Hoffman avenue, by Strong & Ireland, until August 6th, and No. 120 West 50th street, by William Kennelly, until August 13th. Nos. 230 and 232 East 96th street were withdrawn from sale by Peter F. Meyer & Co. On Thursday Richard V. Harnett & Co. postponed to August 8th the sale of No. 51 West 68th street.

G. E. Clay will sell at auction on August 14th a large amount of improved and unimproved Brooklyn and Long Island property, particulars of which will be found in our advertising pages.

Attention is called to the offer to buyers of a country seat on North Shrewsbury River, which will be found in another column.

Coppers to "Gabe" Case, for about $5,000.

LEASES.

The seven-story building to be erected at Nos. 38 to 44 Laight street, as stated last week, has been leased for the new owner, Architect W. H. Russell, for a term of ten years at $12,500, to John H. Wray, who will occupy it for the storage of dry goods.

John Casey, who has just sold his new flat on the northwest corner of Columbus avenue and 84th street, had previously leased the store floor, 50 feet frontage, to the Post-Office Department for five years at $5,000 per annum, and it will be fitted up for use as a sub-station.

Out of Town.

Newark, N. J.—Brown & Schlesinger have sold for George D. Dean, executor of Amzi J. Dean, deceased, the "Hotel Mars" property, on Sandford and Bedford streets, Vailsburg, to William R. Parvin, and for Henry Dickson the vacant lot for improvement, Nos. 40 and 42 Mount Pleasant avenue, to John Walters.

Financial.

Attention is drawn to the offer of Messrs. Spencer, Trask & Co. in to-day's issue of THE RECORD AND GUIDE of $775,000 Atlantic City, N. J., thirty-year 5s to net 4½ per cent. These bonds were issued to acquire the plant of the Atlantic Water Co., which has heretofore supplied the city with water. The interest on these bonds will be in no sense a tax on the people as the income from the plant will not only provide for interest charges, but will create a sinking fund for the retirement of the bonds at maturity. Hon. John F. Dillon has passed upon the legality of the issue.

The Cordage Protective Committee's plan is said to be on the verge, if not in the vortex of collapse. The defection of several important interests from the ranks of their supporters gives color to that view. This leaves the Sturgis-Waterbury-Barbour plan, the only one in the field.

The wheat market has been one of the most peculiar of all the great markets in its extensive rise and almost equally extensive decline. So much has this been the case that some of the largest and most prominent houses in the Street have been all at sea as to the future. Among those who foretold the last advance was the well-known house of Messrs. Boyd & Co., this city, who regard the statistical position of the wheat market as the most favorable for higher prices that has existed in years. They also say that our exports for the current year will doubtless reach 150 millions of bushels, and allowing 350 millions for home wants will make our requirements at least 500 millions of bushels, with only 400 millions as the maximum crop, with the possibility of damage enough to our spring wheat crop to cut the total down to 375 millions of bushels, in which case a positive deficiency would result at the end of the crop year.

Personals.

Charles F. Hoffman, Jr., returned from Europe last week and has located for the remainder of the season at Elberon, N. J.

W. M. V. Hoffman is also one of Elberon's summer guests.

Merritt L. Pike, of the firm of Frank L. Fisher & Co., left on Saturday for a two weeks' outing that takes in the Adirondacks, Lake George and Lake Champlain.

Architect Julius Boekell is indulging in a vacation at Lake Hopatcong, N. J.

James Rufus Smith is enjoying his annual visit to his birthplace, Hanover, Mass., but will be in town again in a few days.

Edward M. Wilkens went away on the 1st inst. for a month's vacation. After spending some time in Canada he has gone West and is visiting relatives in Wisconsin.

Walter Stabler, of Stabler & Smith, will leave on Saturday next for a short vacation at Newtown, Pa.

E. De Forest Shelton will spend the month of August at Richfield Springs.

Mr. John De Hart, architect, has left town to spend the next three weeks at St. Johns and St. Alban's Bay, Nova Scotia.

Arthur R. Parsons left yesterday for Shelter Island, where he will remain about three weeks and then depart for Narragansett Pier, R. I.

John E. Pye is summering at Point Pleasant, N. J.

D. H. Carroll is at South Orange, N. J., and about August 15th will go to Newport, R. I.

Trade Notes.

The Sprague Electric Elevator Co. have been awarded the contracts for equipping with elevators, the two new business buildings now in course of erection by Mr. John T. Williams, Nos. 707 and 709 Broadway, and corner Broadway and Broome street. The first named building will have four elevators and the latter one three.

THE DIAGRAPH.

We take pleasure in recommending the Diagraph manufactured by the Diagraph Company, of Philadelphia and New York, as being a perfect automatic and rapid stencil printing machine. The same is in use in the office of THE RECORD AND GUIDE, and we have found it to have all the qualities which are claimed for it. It is easy to operate and cannot fail to give satisfaction. It is invaluable to all who desire to manifold typewritten letters, circulars, drawings, etc., as the copies are all equally clear and perfect impressions.

CLEANING VACANT LOTS AND HOUSE CLEANING.

The Board of Health when recently led to order the cleaning of vacant lots on 88th street, near West End avenue, very wisely selected the old established Manhattan House Cleaning Bureau, of No. 143 West 26th street, to do the work. The refuse was cleared away and the lots disinfected, to the great relief of residents of the neighborhood. The Manhattan House Cleaning Bureau does all manner of house cleaning, and recently executed orders satisfactorily for Builders Marc Eidlitz & Son, at the new Constable Building, 5th avenue, and for H. S. Ely & Co., at the Prescott Building, Nassau and John streets. The Lying-in-Hospital on 2d avenue and the Presbyterian Hospital were also cleaned by the Manhattan Bureau. Mr. James E. Garner, the proprietor, is a pioneer in his line, and besides having an extended experience, is active and able, possesses the best of facilities and employs an experienced corps of workers, the latter at times numbering 100 men.

FINE INTERIOR WOODWORK AND OFFICE FITTINGS.

Gustav Franke has recently turned out some fine interior woodwork and office fittings for use in a number of the leading houses of the city. Mr. Franke's facilities are of the very best and this, coupled with his extended and valued experience, results in important orders being promptly and satisfactorily filled. Mr. Franke's factory continues at the old stand on South 5th avenue, now known as Nos. 534 to 538 West Broadway, above Bleecker street.

The architectural and building fraternities are notified of the incorporation of the See & Theis Marble Co., who will make a specialty of furnishing, working and setting all varieties of foreign and domestic marble, onyx and similar stones for buildings of all kinds, including church work, such as altars, pulpits, fonts, tablets, etc.; also monumental work. Being located on land covering over a city block, with a water front of about three hundred feet, with fine docks at which any vessel can land, owing to the great depth of water, and adjoining the railroad yards used by all the railroads carrying freight out of New York city, their shipping facilities are the best. They have nearly completed a new and extensive plant containing the newest and best approved machinery, and have engaged the best and most artistic workmen in the marble industry, thereby enabling them to execute work of any magnitude in the best manner at the least possible cost and most expeditiously. Mr. Walter F. See, president of the company, has been for eighteen years identified with the marble trade, during which time he was a member of the firm of A. L. Fauchere & Co., and subsequently of the firm of Batterson, See & Eisele, recently dissolved. Mr. Peter Theis, general manager of the company, has been engaged in the marble trade as a practical man in all branches of the industry for the last thirty years, during ten years of that time as assistant superintendent for Fisher & Bird, and subsequently a member of the firm of Theis & Janssen, recently dissolved. In the directorate of the company are some of the strongest business men and financiers in this city. The steam mills, workshops and yards are located at 282, 284, 286, 288, 290, 292, 294 and 296 Locust avenue, corner 139th street (Port Morris) and 413 and 415 East 25th street. For the convenience of their patrons they have also opened offices in the Metropolitan Life Building, No. 1 Madison avenue. Their telephone call is 596 18th street.

CONCERNING FIRE-PROOFING.

The "Columbian" system of fire-proofing for which Mr. Philip B. Cavanagh, of No. 33 Union square, Decker Building, is Eastern agent, has been used in the handsome new six-story store erected at Nos. 209-213 East 23d street, by the Cass Realty Corporation, and now approaching completion; also at St. Cecelia's new parochial school on East 106th street. Mr. Cavanagh will send a handsome illustrated brochure containing much valuable information about fire-proofing to interested persons who apply for same.

A GOOD SELECTION.

John J. Radley & Co., of No. 624 East 19th street, have been awarded the contract for all the iron-work, both structural and ornamental, to be used in the large new mercantile building about to be erected at the southeast corner of Clinton and University places, from plans by Architect Alfred Zucker, at a cost of $250,000.

REAL ESTATE RECORD AND BUILDERS GUIDE.
ESTABLISHED MARCH 21st 1868.

14 AND 16 VESEY STREET,

TELEPHONE, CORTLANDT 1370.

New York, July 12, 1895

To the Building Material Trades:

Dear Sirs:

What do you think of adding a new department to your business? A department, the functions of which will be as follows:

1. Keep you informed daily of all prospective building operations as soon as the owners begin to talk about action or the architects to formulate plans.

2. Keep you informed of the status of all building operations that interest you, from their inception to their final completion:

3. Give you detailed reports of the materials (of the class you sell) that are needed in every building:

4. The names and addresses of owners, architects, chief contractors, etc., of new buildings.

5. Answer all questions you may desire answered on any of the matters mentioned above, etc., etc.

In short, would you like to attach to your business equipment a large, well organized, thoroughly equipped, Bureau of Intelligence which would furnish you daily with sifted, direct, verified, organized reports of what is going on in the market; Who the Buyers are; What they want; when and where you may find them. The facts you want are put under your eyes, visible at a glance, every morning so that you can--

1. Push ahead to get your share of business:

2. Spare your representatives the expensive game of hunting aimlessly over the field for orders. Give them the pointers; send them direct to the man who wants to buy, armed with information as to the thing wanted. Twice the amount of ground can be covered in this way:

3. Keep yourself (the Head of the Firm) informed of what is going on. Check off what your representatives are doing.

A good thing, a Bureau like this, Eh! But, perhaps you shrink from the expense of salaries to a score of men to travel among architects, owners and others; and no doubt, you don't underestimate the task of organizing this Bureau, managing it, supplying it with brains? Well the Record and Guide (established 1868, the leading Real Estate and Building Journal of the United States) will do the work for you for about fourteen cents a day. That the work will be well done, is guaranteed by the high reputation of the Record and Guide. We know what you want. We have the capital and the experience. You can avail yourself of both for fourteen cents a day. Can you afford to be without this service? It won't of course sell your goods, but, if in the space of a year, you get only one pointer that finds you a customer, the service has paid for itself many times over. This is an age of specialties. You can't do this work as well for yourself, even at a cost of as many dollars as we ask cents. We want to talk to you further about this Bureau of ours, and are at your service.

Shall our representative have the pleasure of calling upon you in a day or two? Send us a postal card.

Yours truly,

RECORD AND GUIDE,

(Building News and Information Department.)

P. S. The Record and Guide guarantees the accuracy, the thoroughness and the progressiveness of this service. Neither money nor effort will be spared to make it perfect and advance it beyond any service now known. Don't pay big prices for information. Avail yourself of our advantages.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

Editor of THE RECORD AND GUIDE:

SIR—In explanation of mechanic's lien filed by us on the 19th inst. agt Howard E. and G. H. Van Orden Brothers for $175.50. In justice to the Van Orden Brothers and ourselves, for we detest the practice of resorting to liens, as 99 per cent of them, where not previously settled, have proved to be the boomerang of the material and working man. In this instance no lien should or would have been filed, had it not been for bad advice, as the Van Orden Brothers were only too willing to pay as soon as the dispute, which existed between the first contractor and ourselves, should be settled. (See Satisfied Liens, July 22.)

REVIEW AND RECORD.

BROOKLYN, JULY 27, 1895.

Notes Gathered Here and There.

THE REFORMATION OF THE COUNTY COURT HOUSE.

The additions to the Court House and the remodeling of its interior will almost make a new structure of it. It has been prominent for a long time as the most ill-kept of the public buildings. As for its accommodations, it must be remembered that when the building was erected there was but a fraction of the business transacted then as compared with what is done at the present time. After long wrangling among the judges and the Board of Supervisors individually and between the two as collective bodies, a plan has at last been formulated which is said to be satisfactory to all parties. An extension on the rear of the building will be run out to Livingston street, facing on that thoroughfare, and will be in the same style of architecture as the present building. The front is to be of Maine granite, marble and Philadelphia pressed brick. The interior is to be almost entirely remodeled. The building of the extension will be of the most approved steel construction and will be as fire-proof as it can be made. The interior trim is to be quartered oak and the judges' desks will be of the same wood. The ceilings are to be of steel. The entire building is to be lit by electricity and heated by steam. The sanitary arrangements are to be on the most approved plan and will, it is to be hoped, help to make the building less menacing to health than it has been hitherto. The toilet rooms are to be lined with Italian marble and the ceilings are to be of stamped metal. The estimated cost of the entire work is about $90,000. Charles Hart is the contractor and Daniel Ryan is the superintendent of construction for the Board of Supervisors.

THE COURT HOUSE ADDITION CONTRACT.

In awarding the contract for the construction of the addition to the Court House to a bidder whose estimate was informal, the Board of Supervisors have invited considerable criticism. The informality consisted of a failure on the part of Mr. Hart, who was the lowest bidder, to fill in several answers to questions and to swear to his entire statement. One of these unanswered questions was whether the bidder was in collusion with any member of the board. The matter, after having been considered in committee, was returned to the board with the recommendation that Mr. Cashman, the next lowest bidder, be awarded the contract, and the statement that Mr. Hart's bid was entirely informal and could not be considered. After some hot debating the matter was referred back to the committee, which ultimately recommended that the contract be awarded to Mr. Hart, the informal bidder. R. A. Breckinridge, acting counsel to the Board of Supervisors, said to a RECORD AND GUIDE reporter that there was nothing in the statutes to prevent the Supervisors from awarding a contract to anyone who bids, whether he is the lowest, highest or intermediate bidder. Further, there was no check on the board's powers to waive an informality, if they see fit to do so. It was not until Mr. Hart agreed to indemnify the county against all damages in this matter that counsel advised the committee to recommend the waiving of the informality and the award of the contract to the lowest bidder.

SURFACE ROADS AND THE BRIDGE.

Several conferences have been held between the city authorities and representatives of the surface railroad companies in reference to the arrangement of the terminal tracks of the railroad companies at the entrance of the Bridge. Plans and counter plans have been submitted on either side without an agreement having yet been reached. The plan that seems likeliest of acceptance is that proposed by President Howells, of the Bridge Trustees, for utilizing the space under the Bridge just above the new terminal, and passing the cars through Liberty street.

THE NASSAU ELECTRIC ROAD FRANCHISES.

The General Term of the Supreme Court has handed down a decision upholding the validity of the Nassau Electric Railroad Company's franchises.

Particulars not fully stated.

Corwith Bros. report that they have sold a plot of land with the buildings thereon, 52.4x100x16.9x100, on the south side of Calyer street, 75 feet west of Newell street, for Joseph L. and Anna M. Halstead.

Fickeissen & Agricola have exchanged for H. Dennewitz the three-story frame dwelling, lot 25x100, No. 59 Cook street, with Henry Roth for the three-story frame dwelling, lot 25x100, No. 18 Kosciusko street, on private terms; they have also sold for Mary Wendel to R. Agricola the two three-story dwellings, 22x73, Nos. 109 and 111 Throop avenue, on private terms.

Johnston & Son have exchanged for Frederick W. Wurster the two-story and basement brownstone dwelling, 20x45x100, No. 668 Lexington avenue, valued at $6,500, with Sarah McNeilly for the two-and-a-half-story and basement frame dwelling, 20x40x100, No. 1136 Lafayette avenue, valued at $6,300.

C. N. Moody & Co. have sold the three-story and basement sandstone front dwelling, 19.6x50x100, No. 370 McDonough street, for J. F. Ryan to W. N. Ellis for $13,000, Mr. Ryan taking in part payment the three-story and basement brownstone dwelling No. 177 Quincy street, 15x45x100, valued at $8,000; also for Thomas C. Higgins a plot, 125x100, on the south side of De Kalb avenue, 300 feet east of Knickerbocker avenue to William Thompson for $8,000.

Builders—Brooklyn.

R. 1110.—Plans are being prepared by Isaac G. Perry, Superintendent of Armories of the State of New York, for an extension to the Forty-seventh Regiment Armory, on Lee avenue. The extension will conform to the present structure in every particular. It is proposed to divide it into rooms for the men, while old rooms are to be fitted up as parlors. The building is to be extended about 15 feet on Heyward and Lynch streets. There will be a drill-room on the second floor, 40x90 feet. A rifle range 100 feet in length is also to be included. The steam-heating plant is to be improved by the addition of two new boilers, and the pipes will be extended to the new building. The building will continue to be lit by gas as it is impossible to put in electric lighting on account of lack of funds. The addition is to be of red brick with stone trimmings and is to have a slate roof. Many changes have been made in the original plans because of the cutting down of the appropriation to $100,000 as against $300,000 asked. The officers hope to be able to obtain another appropriation before the building is completed.

For other Building News see page 114.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments
